

## Minimum feed-in tariff review 2020-21

### **Submission received through Email**

**Date submitted: 30 December 2019**

**Submission written by: Tony**

On 3 December 2019, we published our draft decision for the Minimum feed-in tariff review 2020-21. This draft decision paper asks stakeholders for their views on our proposed minimum feed-in tariff for 2020-21.

#### **1. What do you think of the proposed minimum feed-in tariff for 2020-21?**

How do you justify the new tariff, as you can see below my tariffs are increasing by almost 18% yet the FIT is decreasing by 17%?

That is an absolute disgrace.

People spend their hard earned money on solar systems only to be ripped off by bottom feeding power retailers and bureaucrats.

This CLEARLY NEEDS TO BE ADDRESSED and WE need a better return for our outlay!!
