Appendix B

Old Statement of Obligations 28/7/04 to 30/6/07

Water Industry Act 1994

STATEMENT OF OBLIGATIONS

I, John Thwaites, *Minister* for Water, as *Minister* administering the **Water Industry Act 1994**, pursuant to section 4I of the **Water Industry Act 1994**, issue the attached *Statement* of Obligations to Western Region Water Authority.

JOHN THWAITES MP

Minister for Water

Water Industry Act 1994

STATEMENT OF OBLIGATIONS

WESTERN REGION WATER AUTHORITY

STATEMENT OF OBLIGATIONS

PART 1 - PRELIMINARY						
1	Commencement and Term					
	This Statement of Obligations commences on 28 July 2004 and operates until it is revoked.					
2	Authorising Provision					
	This <i>Statement</i> of Obligations is issued by the <i>Minister</i> for Water under section 4I of the Water Industry Act 1994 .					
3	Purpose					
	The purpose of this <i>Statement</i> is to impose obligations on the <i>Authority</i> in relation to the performance of its functions and exercise of its powers.					
4	Interpretation					
4.1	The definitions of the terms contained in Schedule A to this <i>Statement</i> apply in this <i>Statement</i> . ¹					
4.2	The following rules also apply in interpreting this <i>Statement</i> , except where the content makes it clear that a rule is not intended to apply.					
	(a) Terms defined in the Water Act 1989 and Water Industry Act 1994 have the same meaning in this <i>Statement</i> .					
	(b) Whenever this <i>Statement</i> requires the <i>Authority</i> to make something "available to the public", the <i>Authority</i> must:					
	(i) publish that thing on the <i>Authority</i> 's website; and					
	 (ii) make a copy of the thing available for inspection at each of the Authority's offices; and 					
	 (iii) provide a copy on request at no charge or, where providing the copy involves a significant cost to the <i>Authority</i>, for a charge that covers the fair and reasonable costs of making the copy available. 					
	(c) Whenever this <i>Statement</i> requires an <i>Authority</i> to "develop" something, the <i>Authority</i> must be taken to have complied with that obligation if it has already developed the thing before this <i>Statement</i> commenced.					
5	Availability of Statement					
	The Authority must make this Statement available to the public.					
PART	2- GENERAL					
6	Guiding Principles					
	In performing its functions and providing its services the Authority must:					
	(a) manage water resources in a sustainable manner; and					
	(b) effectively integrate economic, environmental and social objectives into its business operations; and					
	(c) minimise the impacts of its activities on the environment; and					

 $^{^{1}}$ Terms used in this Statement that are defined in Schedule A have been italicised.

	(d) manage risk to protect public safety, quality and security of supply; and					
	(e) operate as efficiently as possible consistent with sound commercial practice; and					
	(f) manage its business operations to maintain the long-term financial viability of the <i>Authority</i> ; and					
	(g) undertake continuous review, innovation and improvement; and					
	(h) collaborate with other public authorities and government agencies to take account of regional needs.					
PART 3	- THE WATER PLAN					
7	Preparation and Delivery of a Water Plan					
7.1	The Authority must develop a Water Plan that complies with the requirements of this Statement for the purpose of enabling the Commission to make a decision with respect to Prices for Prescribed Services in respect of the Regulatory Period.					
7.2	The Authority must deliver the Water Plan to the Commission by 1 September 2004.					
7.3	The Authority must include in the Water Plan:					
	(a) outcomes to be delivered in the <i>Regulatory Period</i> with respect to <i>Standards and</i> <i>Conditions of Service and Supply</i> , meeting future demands on the <i>Authority's</i> services and complying with any obligations specified in this <i>Statement</i> , a <i>Regulatory Obligation</i> and other obligations imposed by or under legislation; and					
	(b) how the Authority proposes to deliver those outcomes; and					
	(c) the Authority's revenue requirements in the Regulatory Period; and					
	(d) the proposed <i>Prices</i> to be charged for each of the <i>Authority's Prescribed Services</i> .					
8	Procedural Requirements					
8.1	The Authority must undertake effective consultation with its customers on matters of concern to its customers that are to be included in the Authority's Water Plan.					
8.2	The Authority must consult:					
	(a) each <i>Regulatory Agency</i> on outcomes to be included in the <i>Water Plan</i> that relate to a <i>Regulatory Obligation</i> ; and					
	(b) the <i>Commission</i> on <i>Standards and Conditions of Service and Supply</i> to be included in the <i>Water Plan</i> .					
8.3	The Authority must consult with the Department on matters to be included in the Water Plan and that relate to the performance of the Authority's functions and the obligations specified in this Statement.					
8.4	As soon as practicable after this <i>Statement</i> commences and no later than at least one month before the <i>Submission Date</i> , the <i>Authority</i> must submit a draft of the <i>Water Plan</i> to the <i>Ministe</i> the Treasurer and each <i>Regulatory Agency</i> .					
8.5	The Authority must make any variation to the Water Plan:					
	(a) requested by the <i>Minister</i> , after consultation with the Treasurer, in writing, at least two weeks before the <i>Submission Date</i> ; and					
	(b) relating to the performance of the <i>Authority</i> 's functions and the obligations specified in this <i>Statement</i> .					
8.6	The Authority must have regard to any comments relating to a Regulatory Obligation that are					

	provided by a <i>Regulatory Agency</i> , in writing, at least two weeks before the <i>Submission Date</i> .				
8.7	The Authority must amend any Price or Standard or Condition of Service or Supply included in a Water Plan that is not approved by the Commission as provided for in the Water Industry Regulatory Order.				
PART 4	PART 4 – GOVERNANCE AND RISK MANAGEMENT				
9	Board Performance				
	The Authority must annually review and report to the Minister on the performance of the Board of the Authority.				
10	Customer and Community Engagement				
10.1	The <i>Authority</i> must develop and implement open and transparent processes to engage its customers and the community in its planning processes to ensure, among other matters, that the services it provides reflect the needs and expectations of customers.				
10.2	The Authority must:				
	(a) make available to the public, information about the water supply, sewerage and recycled water services it provides; and				
	(b) make available to the public, information about water conservation and the efficient and responsible use of water; and				
	(c) make available to schools in its area, educational material about water conservation and the efficient and responsible use of water, at no charge or, for educational material that involves a significant cost to the <i>Authority</i> , at a charge that covers the fair and reasonable costs of making the material available.				
	Managing Risks				
11	Managing Risks				
11	Managing Risks The Authority must develop and implement plans, systems and processes, having regard to the Australian/New Zealand Standard AS/NZS 4360 – Risk Management, as revised from time to time, to ensure that risks to the Authority's assets or services are identified, assessed, prioritised and managed.				
11	The Authority must develop and implement plans, systems and processes, having regard to the Australian/New Zealand Standard AS/NZS 4360 – Risk Management, as revised from time to time, to ensure that risks to the Authority's assets or services are identified, assessed,				
	The Authority must develop and implement plans, systems and processes, having regard to the Australian/New Zealand Standard AS/NZS 4360 – Risk Management, as revised from time to time, to ensure that risks to the Authority's assets or services are identified, assessed, prioritised and managed.				
12	The Authority must develop and implement plans, systems and processes, having regard to the Australian/New Zealand Standard AS/NZS 4360 – Risk Management, as revised from time to time, to ensure that risks to the Authority's assets or services are identified, assessed, prioritised and managed. Responding to Incidents and Emergencies The Authority must include in any plan, system or process to manage its risks, measures to				
12	The Authority must develop and implement plans, systems and processes, having regard to the Australian/New Zealand Standard AS/NZS 4360 – Risk Management, as revised from time to time, to ensure that risks to the Authority's assets or services are identified, assessed, prioritised and managed. Responding to Incidents and Emergencies The Authority must include in any plan, system or process to manage its risks, measures to deal with emergencies and incidents, including measures to deal with: (a) the disruption of services; and (b) incidents resulting in waste discharges to the environment; and				
12	The Authority must develop and implement plans, systems and processes, having regard to the Australian/New Zealand Standard AS/NZS 4360 – Risk Management, as revised from time to time, to ensure that risks to the Authority's assets or services are identified, assessed, prioritised and managed. Responding to Incidents and Emergencies The Authority must include in any plan, system or process to manage its risks, measures to deal with emergencies and incidents, including measures to deal with: (a) the disruption of services; and (b) incidents resulting in waste discharges to the environment; and (c) a dam failure; and				
12 12.1	The Authority must develop and implement plans, systems and processes, having regard to the Australian/New Zealand Standard AS/NZS 4360 – Risk Management, as revised from time to time, to ensure that risks to the Authority's assets or services are identified, assessed, prioritised and managed. Responding to Incidents and Emergencies The Authority must include in any plan, system or process to manage its risks, measures to deal with emergencies and incidents, including measures to deal with: (a) the disruption of services; and (b) incidents resulting in waste discharges to the environment; and (c) a dam failure; and (d) potential security risks, including but not limited to terrorist attacks.				
12	The Authority must develop and implement plans, systems and processes, having regard to the Australian/New Zealand Standard AS/NZS 4360 – Risk Management, as revised from time to time, to ensure that risks to the Authority's assets or services are identified, assessed, prioritised and managed. Responding to Incidents and Emergencies The Authority must include in any plan, system or process to manage its risks, measures to deal with emergencies and incidents, including measures to deal with: (a) the disruption of services; and (b) incidents resulting in waste discharges to the environment; and (c) a dam failure; and				
12 12.1	The Authority must develop and implement plans, systems and processes, having regard to the Australian/New Zealand Standard AS/NZS 4360 – Risk Management, as revised from time to time, to ensure that risks to the Authority's assets or services are identified, assessed, prioritised and managed. Responding to Incidents and Emergencies The Authority must include in any plan, system or process to manage its risks, measures to deal with emergencies and incidents, including measures to deal with: (a) the disruption of services; and (b) incidents resulting in waste discharges to the environment; and (c) a dam failure; and (d) potential security risks, including but not limited to terrorist attacks. The Authority must undertake such periodic training and exercises as may be necessary to				
12 12.1 12.2	The Authority must develop and implement plans, systems and processes, having regard to the Australian/New Zealand Standard AS/NZS 4360 – Risk Management, as revised from time to time, to ensure that risks to the Authority's assets or services are identified, assessed, prioritised and managed. Responding to Incidents and Emergencies The Authority must include in any plan, system or process to manage its risks, measures to deal with emergencies and incidents, including measures to deal with: (a) the disruption of services; and (b) incidents resulting in waste discharges to the environment; and (c) a dam failure; and (d) potential security risks, including but not limited to terrorist attacks. The Authority must undertake such periodic training and exercises as may be necessary to ensure that an emergency management plan can be implemented effectively.				
12 12.1 12.2 13	The Authority must develop and implement plans, systems and processes, having regard to the Australian/New Zealand Standard AS/NZS 4360 – Risk Management, as revised from time to time, to ensure that risks to the Authority's assets or services are identified, assessed, prioritised and managed. Responding to Incidents and Emergencies The Authority must include in any plan, system or process to manage its risks, measures to deal with emergencies and incidents, including measures to deal with: (a) the disruption of services; and (b) incidents resulting in waste discharges to the environment; and (c) a dam failure; and (d) potential security risks, including but not limited to terrorist attacks. The Authority must undertake such periodic training and exercises as may be necessary to ensure that an emergency management plan can be implemented effectively.				
12 12.1 12.2 13	The Authority must develop and implement plans, systems and processes, having regard to the Australian/New Zealand Standard AS/NZS 4360 – Risk Management, as revised from time to time, to ensure that risks to the Authority's assets or services are identified, assessed, prioritised and managed. Responding to Incidents and Emergencies The Authority must include in any plan, system or process to manage its risks, measures to deal with emergencies and incidents, including measures to deal with: (a) the disruption of services; and (b) incidents resulting in waste discharges to the environment; and (c) a dam failure; and (d) potential security risks, including but not limited to terrorist attacks. The Authority must undertake such periodic training and exercises as may be necessary to ensure that an emergency management plan can be implemented effectively. Managing Assets The Authority must develop and implement plans, systems and processes to manage its assets in ways which:				

	Industry Act; or				
	(ii) included in a Water Plan approved by the Commission; and				
	(c) minimise the overall whole of life costs of assets; and				
	(d) minimise detrimental social, economic or environmental effects of managing its assets.				
13.2	The <i>Authority</i> must develop and maintain a comprehensive database of all relevant asset information, including the condition and performance of its assets.				
14	Dam Safety				
14.1	The <i>Authority</i> must develop and implement processes to identify, assess, manage, prioritise improvements to, and periodically review the safety of, dams operated by the <i>Authority</i> .				
14.2	In developing processes under sub-clause 14.1, the <i>Authority</i> must have regard to the <i>ANCOLD Guidelines</i> and have particular regard to:				
	(a) prioritising risks posed by the <i>Authority</i> 's dams over all dams, components of dams and the types of failure; and				
	(b) giving priority to reducing risks to life above other risks; and				
	(c) basing the urgency of reducing the risk posed by a dam on the relativity of risks to the tolerability limits as defined in the <i>ANCOLD Guidelines</i> ; and				
	(d) basing programs for reducing risk on the concept "As Low As Reasonably Practicable" as defined in the ANCOLD Guidelines; and				
	(e) where feasible, progressively implementing risk reduction measures to achieve the best outcomes for the available resources.				
14.3	The Authority must develop and implement a dam safety monitoring and surveillance program for each dam operated by the Authority, consistent with the ANCOLD Guidelines.				
14.4	The <i>Authority</i> must develop and maintain a comprehensive database of all relevant dam safety information.				
14.5	The Authority must prepare and give to the Secretary by 30 June each year a report that contains:				
	(a) a prioritised list of proposed dam safety works identified under clause 14.1 and the dates by which the <i>Authority</i> proposes to complete each of those works; and				
	(b) a summary of the risk profile of:				
	(i) each dam operated by the <i>Authority</i> , at the date of the report; and				
	 each dam on which the <i>Authority</i> proposes to undertake safety works, after those works are complete; and 				
	(c) a summary of the overall risk reduction profile of the Authority's dams.				
14.6	If for any reason the <i>Authority</i> is unable to undertake any proposed dam safety works identified under sub-clause 14.1 within the time advised, it must promptly prepare and give to the <i>Minister</i> a report which explains why the <i>Authority</i> is unable to undertake those works and includes any other information requested by the <i>Secretary</i> .				
PART 5	- PLANNING AND SERVICE DELIVERY				
15	Conserving and Recycling Water				
15.1	To implement sustainable water resource management the <i>Authority</i> must develop and implement programs for:				

	(a) assessing and monitoring available water supplies;				
	(b) assessing and monitoring future demands on water supplies;				
	(c) the efficient and effective management of demand for water;				
	(d) reducing leakage and minimising other losses of water from its works to an economically sustainable level;				
	(e) identifying opportunities to substitute, and if appropriate substituting, potable supplies with water from alternative sources that are fit for purpose; and				
	(f) the sustainable use of recycled water.				
15.2	Programs developed by the <i>Authority</i> under sub-clause 15.1 must specify objectives to be achieved and measures for monitoring performance in accordance with any written directions issued by the <i>Minister</i> for that purpose.				
16	Metering				
	The Authority must meter all new water use.				
17	Responding to Drought				
17.1	The <i>Authority</i> must:				
	(a) develop and implement an effective drought response plan for each water supply system operated by the <i>Authority</i> ; and				
	(b) make its drought response plans available to the public.				
17.2	The Authority must review, and if necessary amend, its drought response plans:				
	(a) at intervals of no more than five years; and				
	(b) within twelve months of either:				
	 the lifting of any period of restriction imposed under the Authority's drought response plan; or 				
	(ii) any major change occurring to works or arrangements for conserving water for, or supplying water to, any water supply system operated by the <i>Authority</i> .				
17.3	In times of actual or anticipated shortage, the <i>Authority</i> must provide information requested by the <i>Secretary</i> regarding the implementation of drought response plans in the form and manner requested.				
18	Sewerage Services to Unsewered Urban Areas				
18.1	The Authority must participate with municipal councils in the development of Domestic wastewater management plans.				
18.2	If reticulated sewerage services:				
	(a) have been identified in a <i>Domestic wastewater management plan</i> as the preferred option for improved domestic wastewater management; or				
	(b) have been nominated by the <i>Minister</i> in any Government funded program,				
	the <i>Authority</i> must develop a sewerage management plan in conjunction with the Environment Protection Authority and relevant municipal council, and in consultation with the local community that:				
	 (i) identifies the preferred types and levels of sewerage services to be provided together with costs and funding options; 				
	(ii) identifies priorities and possible timelines for the provision of services;				

	(iii) identifies how the wastewater collected, including biosolids, will be sustainably managed; and					
	(iv) provides for a regular review of the plan and priority areas for sewering.					
18.3	The <i>Authority</i> must implement any program of works for the provision of sewerage services identified in the sewerage management plan prepared under sub-clause 18.2 that has been:					
	(a) included in a Water Plan for which the Commission has approved or specified Prices; or					
	(b) included in a corporate plan adopted by the Authority; or					
	(c) approved by the Minister, after consultation with the Treasurer.					
19	Sewerage Connections to Properties					
19.1	The <i>Authority</i> must not require a serviced property to be connected to the <i>Authority</i> 's sewerage works unless the sewerage service has been:					
	 (a) included in a sewerage management plan developed in conjunction with the Environment Protection Authority and relevant municipal council, and in consultation with the local community; or 					
	(b) provided in the interests of health or the environment after consultation with, and written advice from, the Environment Protection Authority, a municipal council or the Chief General Manager within the meaning of the Health Act 1958.					
19.2	The Authority must take all reasonable steps to ensure that a property provided with a sewerage service:					
	 (a) included in a sewerage management plan developed in conjunction with the Environment Protection Authority and relevant municipal council, and in consultation with the local community; or 					
	(b) provided in the interests of health or the environment after consultation with the Environment Protection Authority, a municipal council or the Chief General Manager within the meaning of the Health Act 1958 ,					
	is connected to the <i>Authority</i> 's sewerage works, unless the owner of a property can demonstrate that wastewater can be beneficially retained on site in accordance with guidelines issued by the Environment Protection Authority.					
20	Trade Waste					
20.1	The Authority must develop policies and practices to manage trade waste:					
	 (a) to protect its sewerage systems, including treatment works and processes, and the health and safety of the public and of people working in or operating those systems; and 					
	(b) to minimise environmental impacts consistent with any licence issued under the Environment Protection Act 1970 ; and					
	(c) improve the quality of trade waste entering its sewerage systems in order to maximise opportunities for the reuse of wastewater and biosolids.					
20.2	In developing trade waste management policies and practices, the <i>Authority</i> should be guided by the waste management hierarchy principle set out in section 1I of the Environment Protection Act 1970 .					
20.3	The <i>Authority</i> must develop and implement systems for managing compliance with trade waste agreements between the <i>Authority</i> and customers.					
21	Regional and Local Government Planning					
21.1	The Authority must participate in and support the development and implementation of any Regional Catchment Management Strategy or catchment sub-strategy or Regional River					

	Health Strategy which may affect, or be affected by, the Authority's activities.				
21.2	The <i>Authority</i> must participate in and support the development and implementation of any municipal planning scheme, local planning policy framework or municipal strategic statement which may affect, or be affected by, the <i>Authority</i> 's activities.				
21.3	A principal objective of the <i>Authority</i> 's participation will be to promote consistency of any strategy or any scheme with its planning and programs for sustainable water management.				
PART 6	6 - ENVIRONMENTAL MANAGEMENT				
22	Environmental Management System				
	The Authority must develop and implement an Environmental Management System which;				
	 (a) must be in accordance with the following standards from the Standards Australia AS/NZS ISO 14000 Series of Environmental Management Systems Standards: 				
	 AS/NZS ISO 14001: 1996 – Environmental Management Systems – Specification with Guidance for Use; and 				
	 (ii) AS/NZS ISO 14004: 1996 – Environmental Management Systems – General Guidelines on Principles, Systems and Supporting Techniques; but 				
	(b) need not be accredited under those standards.				
23	Blue-Green Algal Blooms				
23.1	The Authority must report any blue-green algal blooms impacting on water supply services to:				
	(a) the Department of Human Services; and				
	(b) the relevant <i>Convening Agency</i> .				
23.2	If the Authority is a Convening Agency, the Authority must:				
	 develop and maintain on an annual basis a contingency plan for regional blue-green algal blooms; and 				
	(b) undertake its duties as a <i>Convening Agency</i> in accordance with that contingency plan.				
24	River Health				
24.1	The Authority must manage the impact of its activities on any waterway or wetland to minimise environmental impacts on and risks to the aquatic ecosystem.				
24.2	When the <i>Authority</i> renews or carries out major works on a dam or existing structure on a waterway, or constructs a new structure on a waterway, the <i>Authority</i> must ensure that				
	(a) it is renewed or constructed so that:				
	(i) the dam or structure does not pose a barrier to native fish movement; and				
	 (ii) water releases do not pose an environmental risk through variations of temperature, dissolved oxygen, sediment, nutrients or other substances; and 				
	(iii) adequate offtakes are provided for environmental flows, or				
	(b) if it is not practical to comply with paragraph (a), it is renewed or constructed in accordance with a plan of works approved by the <i>Secretary</i> .				
24.3	The <i>Authority</i> must liaise with Catchment Management Authorities to ensure that environmental flow regimes are managed to maximise ecological benefits.				
25	Monitoring River Health				

25.1	The Authority must monitor the impact of its activities on waterways and wetlands, including the impact of dams on the thermal regime of waterways.				
25.2	The Authority must make available to the public:				
	(a) water quality and flow data compiled by the Authority relating to waterways; or				
	(b) if the data is available from a central data agency, relevant contact details for that agency.				
PART 7	RT 7 - PAYMENT SCHEMES AND CONTRIBUTIONS				
26	Capital Contributions by Property Owners				
26.1	In this clause, the owner of a property does not include the owner of a property being subdivided, developed or used for commercial purposes.				
26.2	The <i>Authority</i> must offer the owner of any property who is required to make a contribution to the present day cost of works for the provision of reticulated sewerage services, under section 268(1) of the Water Act 1989 , the option of paying that contribution in equal instalments over 20 years as an annuity calculated by reference to the 20-year market annuity rate, as determined by the Treasury Corporation of Victoria, prevailing at the time the contribution is calculated.				
27	Providing Concessions and Rebates				
	The <i>Authority</i> must administer the following Government-funded programs, as applicable, in accordance with their respective requirements:				
	(a) Utilities Relief Grants Scheme;				
	 (b) Concessions for water service and usage charges and sewerage service and sewage disposal charges; 				
	(c) Water concession on Life Support Machines – Haemodialysis;				
	(d) Hardship Relief Grant Scheme (Sewerage Connection Scheme);				
	(e) Water and Sewerage Rebate Scheme; and				
	(f) Water Conservation Assistance Pilot Program.				
PART 8	RT 8 – COMPLIANCE				
28	Complying with Obligations				
28.1	The Authority must monitor compliance with its obligations under Parts 4 to 7 inclusive of this Statement.				
28.2	If the <i>Authority</i> becomes aware of a material failure to comply with its obligation under Parts 4 to 7 of this <i>Statement</i> , the <i>Authority</i> must give the <i>Minister</i> a written report, within 30 days after becoming aware of the failure, that includes:				
	(a) the nature of and reason for the failure; and				
	(b) a proposed plan of action to prevent the failure re-occurring.				
28.3	The <i>Authority</i> must make any variation to the plan of action referred to in sub-clause 28.2 requested in writing by the <i>Minister</i> .				
28.4	The Authority must:				
	(a) implement the plan of action referred to in sub-clause 28.2, as varied by the <i>Minister</i> , and				

	(b) report its progress in implementing the plan, whenever the <i>Minister</i> requests in writing; and					
	(c) summarise the contents of any report made under sub-clause 28.2 and its progress in implementing the plan in its annual report.					
29	Compliance Audits					
29.1	The Authority must, when requested by the Commission, at intervals of not more than once in twelve months, arrange for an audit of its compliance with:					
	(a) clause 13 of this Statement, and					
	(b) such other obligation under Parts 4 to 7 of this <i>Statement</i> that the <i>Authority</i> has been requested by the <i>Minister</i> to audit.					
29.2	The Authority must ensure that any audit under sub-clause 29.1 is:					
	(a) conducted by an independent auditor nominated by the <i>Authority</i> and approved by the <i>Commission</i> ; and					
	(b) conducted in accordance with any guidelines issued by the <i>Commission</i> .					
29.3	The Authority must ensure that a copy of the auditor's final report is provided to both the <i>Commission</i> and the <i>Minister</i> .					
29.4	The <i>Minister</i> may, at any time, require the <i>Authority</i> to report to the <i>Minister</i> in writing on action taken by the <i>Authority</i> on any matter:					
	(a) contained in an auditor's report; and					
	(b) specified by the <i>Minister</i> in writing.					
30	Other Audits and Reviews					
	The <i>Authority</i> must, when requested by the <i>Minister</i> , after consultation with the Treasurer, arrange for an audit or review of any matter specified by the <i>Minister</i> in relation to the performance of its functions and the exercise of its powers.					
PART 9	- TRANSITIONAL CUSTOMER SERVICE STANDARDS					
31	The Customer Charter					
	Until the <i>Commission</i> approves a new Customer Charter for the <i>Authority</i> , the <i>Authority</i> must continue to comply with the Customer Charter in existence at the commencement of this <i>Statement</i> .					
32	Drinking Water					
32.1	Until <i>New Drinking Water Standards</i> take effect, the <i>Authority</i> must monitor water supplied for human consumption in accordance with any instruction from the Secretary of the Department of Human Services relating to monitoring or analysis of drinking water.					
32.2	Until <i>New Drinking Water Standards</i> take effect, the <i>Authority</i> must comply with the water quality standards in Schedule B to this <i>Statement</i> , when supplying water for human consumption, except where:					
	(a) supplies to a town have been declared non-potable supplies; or					
	(b) the construction of water treatment infrastructure is in progress; or					
	(c) water is supplied by agreement under section 124(7) of the Water Act 1989.					

SCHEDULE A

DEFINITIONS

The following definitions apply:

"ANCOLD Guidelines" means the Guidelines issued by the Australian National Committee on Large Dams Inc. as revised from time to time.

"Authority" means Western Region Water Authority.

"Commission" means the Essential Services Commission.

"**Convening Agency**" means an *Authority* listed as a Convening Agency in Circular No. 287 Blue-Green Algae – Co-ordination Arrangements for 2002-2003 and Related Matters as issued and amended from time to time by the *Department*.

"Department" means the Department of Sustainability and Environment.

"Domestic wastewater management plan" means a plan developed by a municipal council for the purposes of clause 32(2)(e) of State environment protection policy No S-13 (Waters of Victoria) 1988 as varied.

"Minister" means the Minister administering the Water Industry Act 1994.

"New Drinking Water Standards" means standards made under the Safe Drinking Water Act 2003 to regulate the quality of water used for human consumption.

"**Prescribed Services**" means the services specified in the *Water Industry Regulatory Order*, as revised from time to time, as Prescribed Services in respect of which the *Authority* has the power to regulate *Prices*.

"Price" includes the manner in which such Prices are to be calculated or otherwise determined.

"**Regulatory Agency**" means the Environment Protection Authority, the Secretary to the Department of Human Services, and the *Commission*;

"Regulatory Obligation" means

- (i) in relation to the Environment Protection Authority, an obligation imposed by or under the **Environment Protection Act 1970**;
- (ii) in relation to the *Authority*, an obligation imposed by or under a Code made under section 4F of the **Water Industry Act 1994**;
- (iii) in relation to the Secretary to the Department of Human Services, an obligation imposed by or under the Safe Drinking Water Act 2003, the Food Act 1984 or the Health (Fluoridation) Act 1973.

"Regulatory Period" is the three-year period commencing on 1 July 2005.

"Secretary" means the person occupying or acting in the position of *Secretary* of the *Department*.

"Standards and Conditions of Service and Supply" means Standards and Conditions of Service and Supply for services specified in the *Water Industry Regulatory Order* as declared services.

"Statement" means this Statement of Obligations.

"Submission Date" means the date specified in sub-clause 7.2.

"Water Plan" means the Water Plan required by this *Statement* to be delivered to the *Commission*.

"Water Industry Regulatory Order" means the Water Industry Regulatory Order 2003 as revised from time to time.

SCHEDULE B

HEALTH RELATED DRINKING WATER STANDARDS

(based on "Guidelines for Drinking Water Quality" issued by the World Health Organisation, Geneva in 1984)
