

Breakdown of costs*

The ESC's final decision has approved of GMMWater's costs of 5.1% (or \$15 million) over the five years from 2013-14.

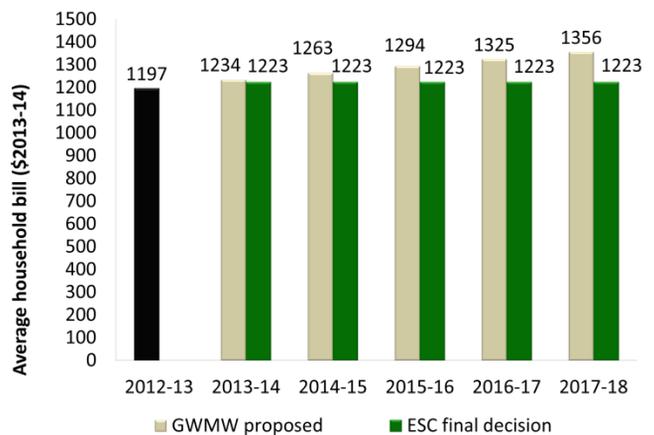

Prices*

The ESC's final decision has approved an increase in average prices of 3.1% over the five years from 2013-14.

Indicative household bills (owner-occupier)**

The ESC's final decision has approved that over the next five years, indicative GMMWater household bills would be reduced by \$357*.

*Indicative bills are based on consumption for owner-occupier households.

** Household bills are presented in 2013-14 prices.

All numbers presented here are in 2012-13 dollars and do not include future inflation, with the exception of household bills.

Key Final Decision Outcomes

Expenditure

Operating Expenditure

- The final approved operating expenditure by the Commission is \$153.7 million.
- This is \$6.4 million (4.0 per cent) lower than the proposed expenditure of \$160.1 million. This includes GMMWater's actual and forecast expenditure for its rural operations.

Capital Expenditure

- GMMWater proposed capital expenditure of \$87.6 million.
- The Commission's final decision approved capital expenditure of \$92.6 million.
- This is \$5.0 million (5.7 per cent) lower than the proposed expenditure by the water business.

Tariffs

Retail Water Tariffs

- GMMWater proposed to maintain their existing two-part tariffs for residential customers — a fixed service charge and a single variable charge.
- In its final decision, the Commission has approved the price structure of residential and non-residential retail water tariffs proposed by GMMWater.

Recycled Water Tariffs

- GMMWater proposed to maintain a two part tariff structure — a fixed component and a variable component for residential and non-residential sewerage tariffs.
- The Commission has approved GMMWater's proposal to maintain existing tariff structures for residential and non-residential sewerage services in its final decision.
