Acknowledgement of Country

AusNet respects and honours Aboriginal and Torres Strait Islander Elders past, present and future. We acknowledge the stories, traditions and living cultures of Aboriginal and Torres Strait Islander peoples on this land and commit to building a brighter future together.

The Western Renewables Link (WRL) project recognises and pays respect to the Wotjobaluk, Jaadwa, Jadawadjali, Wergaia and Jupagulk peoples, represented by the Barengi Gadjin Land Council (BGLC); Dja Dja Wurrung Clans Aboriginal Corporation (Djaara); Eastern Maar Aboriginal Corporation (EMAC); Wadawurrung Traditional Owners Aboriginal Corporation (WTOAC) and Wurundjeri Woi Wurrung Cultural Heritage Aboriginal Corporation (WWWCHAC), the Traditional Owners of the lands on which the WRL will operate. The Project recognises the role of First Peoples - State Relations and each Registered Aboriginal Party (RAP) in the management, protection, and promotion of cultural heritage on Country, cultural awareness, and land access.

1. Introduction

1.1. Report purpose

This is a monthly report compiled by AusNet Transmission Group Pty Ltd (AusNet) and issued to the Essential Services Commission (Commission). This report provides a summary of the Western Renewable Link's (WRL's) performance against the general principles set out in the commission's 'Electricity Transmission Company Land Access Statement of Expectations' (statement of expectations).

The Commission requires the reports to be provided on the first business day of each month unless otherwise agreed between AusNet and the Commission. Each report contains data for the preceding month. It is acknowledged that it may not be possible to include data related to land access that occurs in the final days of the reporting period. As such, each WRL report indicates the date up until which data has been included and outstanding data for the remaining days of that month will be included in the following month's report.

Each month the Commission makes a non-confidential version of the report publicly available via its website <u>https://www.esc.vic.gov.au</u>, therefore, AusNet provides the report in two formats:

- a report with confidential information, wherein the confidential information is clearly identified; and
- a report for publication which has the confidential information redacted.

1.2. Reporting overview

The commission has outlined the following reporting metrics for AusNet to provide each month.

1.2.1. Number of voluntary access agreement negotiations underway

Where temporary access to land is necessary, the majority of affected landholders have received the voluntary land access consent form to consider and discuss with their Land Liaison Officer. Ongoing conversations regarding voluntary access consents progress organically with each individual landholder as land access is sought. For this report, the total number of landholders is defined as any person/s (including an entity e.g., company or trust) entitled to hold a parcel of land within the proposed route.

Metric reported: Section 2, Table 1

Definition: Total number of private landholders minus:

- the number of landholders that have signed a voluntary land access consent form;
- the number of landholders that have declined to sign a voluntary land access consent form; and
- the number of landholders that have not yet been presented with a voluntary land access consent form.

1.2.2. How principles 2 – 14 have been applied to voluntary access agreement negotiations underway

Principles 2 to 14 have been applied as reported in Appendix D and as detailed in the spreadsheet in Appendix C (confidential).

1.2.3. Number of voluntary access agreements entered into

The total number of voluntary land access consent forms signed will be reported monthly. It should be noted that a landholder can withdraw their prior consent at any time, therefore, this number may fluctuate.

Metric reported: Section 2, Table 1

Definition: Total number of new voluntary land access consent forms signed by both the landholder and land liaison officer, for the reporting period.

1.2.4. How principles 2 – 14 have been applied to voluntary access agreement entered into

Principles 2 to 14 have been applied as reported in Appendix D and as detailed in the voluntary land access consent form.

1.2.5. Number of notices issued regarding access under section 93 of the Electricity Industry Act 2000 (Vic)

AusNet provides written notice to enter land under section 93 (s93) of the Electricity Industry Act 2000 (Vic) (Act) to landholders a minimum of seven (7) days prior to the planned access date. As the notice to enter is sent in advance of planned access, the number of notices sent compared to number of the accesses to land that occurred pursuant to section 93 of the Act may not match.

Metric reported: Section 2, Table 1

Definition: Number of notices to enter under section 93 of the Act sent within the reporting period.

1.2.6. How principles 2 – 14 have been applied prior to issuing each notice regarding access under section 93 of the Act

Principles 2 to 14 have been applied as reported in Appendix D and detailed in the notice to enter under section 93 of the Act as well as detailed in the spreadsheet in Appendix C (confidential).

1.2.7. Number of times land was accessed pursuant to section 93 of the Act

The number of times land was accessed pursuant to section 93 of the Act, and in each instance whether each access was pursuant to a notice issued and the period between issuing a notice and access occurring.

Metric reported: Section 2, Table 1

Definition: Each instance of land access is counted separately, even if multiple instances of land access are conducted pursuant to a single notice. For instance, if a survey requires land to be accessed over three days, twice a day, it will be recorded that there were six instances of land access. The description of how the principles were applied, if common to the multiple instances of land access, is not repeated.

1.2.8. How principles 15 – 20 were applied to land accessed pursuant to section 93 of the Act

Principles 15 to 20 have been applied as reported in Appendix D and detailed in the notice to enter under section 93 of the Act as well as detailed in the spreadsheet contained in Appendix C (confidential).

1.2.9. Number and nature of complaints received in relation to section 93 access

The number and nature of complaints received, including those forwarded to the Energy and Water Ombudsman (Victoria), in relation to access under section 93 of the Act, the time to respond to each complaint, and actions taken, if any, in response to the complaint.

Metric reported: Section 2, Table 1

Definition: A complaint received from a landholder that specifically addresses their concerns in relation to land access under s93 of the Act.

1.3. Reporting period

Reporting period: 25 December 2022 - 24 January 2022

Previous reporting period: 25 November 2022 - 24 December 2022

2. ESC Statement of Expectations monthly report

2.1. Performance summary

There was less activity than usual during the reporting period due to the Christmas and New Year holiday period. AusNet's shutdown period was 24 December 2022 – 9 January 2023, however, the WRL project inbox and phone were staffed throughout that period.

For this reporting period, 25 December 2022 to 24 January 2023, AusNet accessed thirty three (33) parcels of land owned by sixteen (16) different landholders. Of these parcels of land:

- fifteen (15) were agency land;
- eighteen (18) were private land;
 - eighteen (18) were accessed under voluntary consent; and
 - none (0) was accessed pursuant to s93 of the Act.

No compensation claims were raised in relation to land access directly to the project team during the reporting period. Zero (0) complaints were raised in relation to land access under s93 of the Act to the project team during the reporting period.

One (1) complaint in relation to land access was raised with EWOV during the reporting period.

Appendix D - ESC Statement of Expectations performance assessment

1. ESC Statement of Expectations performance assessment

1.1. Approach to communication and engagement

Qualitative assessment of performance in relation to principles 2 – 5 can be found in the tables below.

1.1.1. Principle 2: 'Ensure staged, timely engagement and consultation'

Table 2: Approach to communication and engagement principle 2 – WRL performance for reporting period

Principle 2		examples of actions by electricity transmission npanies	WR	L performance for reporting period
Ensure staged, timely engagement and consultation An electricity transmission company will an electricity transmission company will	•	As early as is practicable in the planning process, publish details of the project, timeline, and key milestones, and update these as information changes.	•	As per 1 December 2022 report (Document number: WVTNP-ANS-000- PLC-MR-0004_1.0). No change.
undertake staged, timely, relevant and appropriate engagement and consultation with landowners and parties interested in land potentially affected by	•	Outline the electricity transmission company's commitments and landowners' rights in plain English	•	As per 1 December 2022 report (Document number: WVTNP-ANS-000- PLC-MR-0004_1.0). 	•	Provide timely updates and additional details as necessary to inform affected landowners on project progress.	•	As per 1 December 2022 report (Document number: WVTNP-ANS-000- PLC-MR-0004_1.0). No change.

1.1.2. Principle 3: 'Be accessible and responsive'

Table 3: Approach to communication and engagement principle 3 - WRL performance for reporting period

Principle	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
Be accessible and responsive An electricity transmission company will provide affected landowners with an	 Provide a designated person, such as a 'land liaison officer', for each landowner 	 As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.
accessible point of contact in the company. They will be available to respond to questions and address issues promptly during all stages of a transmission project.	Provide a 24/7 contact number	 As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.

1.1.3. Principle 4: 'Use accessible, readable communications'

Table 4: Approach to communication and engagement principle 4 - WRL performance for reporting period

Principle 4	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
Use accessible readable communications	 Ensure all materials are written in plain English, concise and easy to follow. Avoid use of legal language. 	 As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.
All written electricity transmission company communication materials regarding land access must be readable and readily accessible by those affected by a transmission project.	 Ensure all material is readily accessible. General information may be published on an electricity transmission company's website, notifications placed in local papers or other media where warranted, and letters or emails sent to affected landowners. 	_ , 0
	Provide links to translation services in communications.	• As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.

1.1.4. Principle 5: 'Employ respectful two-way communication

Table 5: Approach to communication and engagement principle 5 - WRL performance for reporting period

Principle 5	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
Employ respectful two-way communication An electricity transmission company will communicate openly and honestly, and act respectfully and collaboratively with landowners and other parties interested in land affected by its proposed land access. Wherever possible, an electricity transmission company will incorporate landowner feedback into its decisions regarding proposed land access	Conduct all communication collaboratively, sensitively and respectfully. This includes formal correspondence with landowners.	 As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.
	Ensure that anyone who engages with landowners from or on behalf of the electricity transmission company has training in appropriate and effective stakeholder engagement, including on the principles in this document	 As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). Exception reporting below: WRL AusNet Stakeholder and Engagement staff trained in IAP2 (module 2) engagement methods training. ESC Statement of expectations online training (via Rapid Global) available to all project personnel that will be involved in field work and site access. Re-induction of this this online training will occur annually.
	Be flexible where practicable to reschedule appointments and land access activities if reasonably requested by the landowner	 As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.
	 Adapt the mode, method and points of access if appropriate, if reasonably requested by the landowner. 	 As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.
	 For example, where it is possible without impacting project timelines, adjustments could be made to minimise harm when paddocks are wet, during critical days of seasonal production operations, or when a landowner is unavoidably absent from a property. 	 As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.
	 On request from a landowner an electricity transmission company should share the outcomes of its investigations with the landowner where appropriate and where able to do so. 	 As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.

1.2. Process of communication and engagement

Qualitative assessment of performance in relation to principles 6 – 14 can be found in the tables below.

1.2.1. Principle 6: 'Identify and contact those affected

Table 6: Approach to communication and engagement principle 6 - WRL performance for reporting period

Principle 6	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
Identify and contact those affected An electricity transmission company will make diligent and comprehensive efforts	 Contact the registered landowner of the property to be accessed. 	 As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.
to identify and contact landowners and others likely to be directly affected by its proposed land access.	Contact persons occupying the property to be accessed.	• As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.
	 Implement reasonable fallback measures when contact is not achieved or acknowledged (for example, making enquiries with Local Government), in compliance with applicable privacy laws. 	 As per 1 December 2022 report (Document number: WVTNP-ANS- 000-PLC-MR-0004_1.0). No change.
	 Communication may be via registered mail where other attempts at contact have failed 	 As per 1 December 2022 report (Document number: WVTNP-ANS- 000-PLC-MR-0004_1.0). No change.

1.2.2. Principle 7: 'Provide identification on contact'

Table 7: Approach to communication and engagement principle 7 - WRL performance for reporting period

Principle 7	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
Identify and contact those affected An electricity transmission company will ensure that anyone contacting landowners regarding land access (whether by phone or verbally in person) from or on behalf of the electricity transmission company, will clearly identify themselves and who they work for, and specify the purpose of the contact. The electricity transmission company need not disclose the full names of individuals acting for or on its behalf, provided that the individual has identification or written authorisation that a landowner can readily verify with the electricity transmission company.	 An electricity transmission company may implement a system that allows quick verification of credentials for authorised officers, rather than providing individuals' full details. 	 As per 1 December 2022 report (Document number: WVTNP-ANS- 000-PLC-MR-0004_1.0). No Change.

1.2.3. Principle 8: 'Outline access rights and obligations

Table 8: Approach to communication and engagement principle 8 - WRL performance for reporting period

Principle 8	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
Outline access rights and obligations An electricity transmission company will provide information on the rights of landowners' and parties interested in land in relation to its land access, as well	 Direct stakeholders to this statement of Expectations and to related published information. 	 As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.
as the company's commitment to meeting the principles in this Statement of Expectations. An electricity transmission company will publish or provide a link to this Statement of Expectations on the electricity transmission company's website.	 Provide a simple description of: the electricity transmission company's right to access land even without a landowner's consent, and its obligation to do as little harm as possible. the entitlement to compensation if the electricity transmission company causes damage when exercising its rights to access land. 	 As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.

1.2.4. Principle 9: 'Make clear when and why access is required'

Table 9: Approach to communication and engagement principle 9 - WRL performance for reporting period

Principle 9	ESC examples of actions by electricity transmission companies WRI	RL performance for reporting period
Make clear when and why access is required An electricity transmission company will		As per 1 December 2022 report (Document number: WVINP- ANS-000-PLC-MR-0004_1.0). No change.
provide such information as is reasonably necessary for a landowner to understand when and why proposed access to the landowner's property is required. An electricity transmission company will		As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.
provide its best estimate of the duration of access and will also explain variables that may affect that duration. Agreed arrangements for access may be time and purpose limited.		As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.

land access for a greenfield transmission project.	 Explain interactions of the access sought with environmental, planning and other relevant government processes. 	 As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

1.2.6. Principle 11: 'Commit to details on how access will occur'

Table 11: Approach to communication and engagement principle 11 - WRL performance for reporting period

Principle 11	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
Commit to details on how access will occur	 Identify and agree where possible with the landowner the dates, times and expected duration and mode of access. 	• As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004 1.0). No change.
An electricity transmission company will consult with landowners on access details and commit to how access will	• Identify key variables that may affect the proposed details.	• As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.
occur. Where possible, landowners' preferences will be taken into consideration.	 Identify what equipment will be brought onto the land and the purpose it will be used for. 	 As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). Exception reporting below to align with updated landholder land access letter templates issued to the project team on 21 December 2022: If via s93 process, Landholder land access correspondence Letter 3b – Follow up request to access property for specific survey (optional) and Letter 4b – Notice of intention to enter via s93 of the Act will specify equipment to be brought onto the land and its purpose.
	 Identify how many people are expected to enter the land on behalf of the electricity transmission company, and which company or organisation they represent. 	 As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). Exception reporting below to align with updated landholder land access letter templates issued to the project team on 21 December 2022: If via s93 process, Landholder land access correspondence Letter 3b – Follow up request to access property for specific survey (optional) and Letter 4b – Notice of intention to enter via s93 of the Act will detail how many people and their roles will be entering the property of the planned access date.
	 Commit to minimising attendance where possible and appropriate, generally only with those personnel reasonably required to safely perform investigations or works. 	 As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.

1.2.7. Principle 12: 'Give reasonable notice of proposed access'

Table 12: Approach to communication and engagement principle 12 - WRL performance for reporting period

Principle 12	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
Give reasonable notice of proposed access An electricity transmission company will ensure that notice periods and notice content (that is, providing details of activities) are reasonable. These must be proportionate both to the stage of the	 Seek agreement on reasonable notice periods for access that reflect land use and related timing requirements (for example, stages of crop growth, animal husbandry). project, and to the potential impact of access on landowners and parties interested in the land.	 Establish a preferred protocol with landowners for providing adequate notice for access requests or changing of access requests (for example, email, phone call or letter). 	 As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
An electricity transmission company will establish and publish minimum notice periods for land access. Where practicable, notice periods and formats should reflect the landowner's preferences.		

1.2.8. Principle 13: 'Keep records'

Table 13: Approach to communication and engagement principle 13 - WRL performance for reporting period

Principle 13	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
Keep records	 Confirm in writing verbal communications pertaining to the manner of access with the landowner. 	 As per 1 December 2022 report (Document number: WVTNP-ANS- 000-PLC-MR-0004 1.0). No change.
In accordance with electricity transmission licences, an electricity transmission company will maintain access related records of its contact with landowners and parties interested	 Document all communications regarding land access between electricity transmission company officers and landowners. in land for a period of seven years.	• Make these communications available to the landowner in a timely fashion upon their request.	 As per 1 December 2022 report (Document number: WVTNP-ANS- 000-PLC-MR-0004_1.0). No change.

1.2.9. Principle 14: 'Maintain confidentiality and respect privacy

Table 14: Approach to communication and engagement principle 14 - WRL performance for reporting period

Principle 14	ESC examples of actions by electricity transmission companies	WRL existing practice
Maintain confidentiality and respect privacy An electricity transmission company will	 Apply privacy principles to access-related information collected. This includes only collecting and dealing with information in accordance with the Australian Privacy Principles as provided in the Privacy Act 1988 (Cth) 	 As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). ensure that it collects and maintains data strictly in accordance with privacy legislation.	 Provide individuals with the right to correct their personal information if necessary. 	 As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.

1.3. Managing impacts of access

Qualitative assessment of performance in relation to principles 15 – 20 can be found in the tables below.

1.3.1. Principle 15: 'Minimise impact on land and landowners'

Table 15: Approach to managing impacts of land access principle 15 - WRL performance for reporting period

Principle 15	ESC examples of actions by electricity transmission companies	WRL existing practice
Minimise impact on land and landowners An electricity transmission company will take all reasonable measures to minimise	 Cause as little harm, inconvenience and damage as possible to the land, as well as to anything living on or growing on the land. 	 As per 1 December 2022 report (Document number: WVTNP-ANS- 000-PLC-MR-0004_1.0). No change.
the impact of its access on landowners and parties interested in land, and on the land itself.	 Remain upon the land only for such a period as is reasonably necessary. 	• As per 1 December 2022 report (Document number: WVTNP-ANS- 000-PLC-MR-0004_1.0). No change.
This reflects the company's statutory obligations in section 93 of the Act to do as little damage as possible, and to make full compensation to the owner and all parties interested in the land for damages they sustain in consequence of the exercise of access powers under section 93 of the Act.	 Remove all plant, machinery, equipment, goods or buildings brought onto, or erected on, the land on completion of access (other than any of those things that the landowner or occupier agrees may be left on the land or which are required for the purpose of the access, such as equipment for animal surveys). 	 As per 1 December 2022 report (Document number: WVTNP-ANS- 000-PLC-MR-0004_1.0). No change.
	 Leave the land—as close as possible—in the condition in which it was immediately before the land was accessed. 	 As per 1 December 2022 report (Document number: WVTNP-ANS- 000-PLC-MR-0004_1.0). No change.
	• Use best endeavours to cooperate with the landowner and land occupier.	• As per 1 December 2022 report (Document number: WVTNP-ANS- 000-PLC-MR-0004_1.0). No change.

1.3.2. Principle 16: 'Meet expected work standards'

Table 16: Approach to managing impacts of land access principle 16 - WRL performance for reporting period

Principle 16	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
Meet expected work standards An electricity transmission company will ensure that all its activities on the land are undertaken in accordance with all relevant Commonwealth, State and Local Government laws. These activities are to be conducted in a proper, efficient and effective manner.		 As per 1 December 2022 report (Document number: WVTNP-ANS-000- PLC-MR-0004_1.0). No change.

1.3.3. Principle 17: 'Meet requirements for field-based employees and contractors accessing land'

Table 17: Approach to managing impacts of land access principle 17 - WRL performance for reporting period

Principle 17	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
Meet requirements for field-based employees and contractors accessing land	 Where practicable, ensure vehicles use existing roads, access points, tracks, designated work areas or set- down areas. 	 As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.
An electricity transmission company will require all persons entering or accessing land on its behalf to provide identification, if requested, on each	Where not practicable, liaise with landowners to determine the most appropriate paths of entry.	 As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.
entry. Such persons are expected to have the relevant skills, training and qualifications to undertake their allocated tasks. All persons must respect the landowner's privacy, private assets and infrastructure. All gates, fences and grids are to be left as found, unless otherwise advised by the landowner, or where necessary and in accordance with good industry practice.	 Use risk mitigation measures. Specific examples for such measures are set out in principles 18 to 21. 	 As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.
All reasonable measures to identify, avoid and mitigate risks must be observed, as well as compliance with this Statement of Expectations.		

1.3.4. Principle 18: 'Implement environmental and biosecurity controls'

Table 18: Approach to managing impacts of land access principle 18 - WRL performance for reporting period

Principle 18	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
Implement environmental and biosecurity controls An electricity transmission company will ensure that all its activities on the land are undertaken in accordance with all relevant Commonwealth, State and Local Government laws. These activities are to be conducted in a proper, efficient and effective manner.	 Implement systems to check for active biosecurity incidents or outbreaks in an area prior to accessing a property and comply with any statutory limitations on movements arising from such incidents or outbreaks. 	 As per 1 December 2022 report (Document number: WVINP- ANS-000-PLC-MR-0004_1.0). No change.
	Adopt 'come clean, leave clean' practices.	 As per 1 December 2022 report (Document number: WVINP- ANS-000-PLC-MR-0004_1.0). No change.
	 Observe biosecurity signage on properties. 	 As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.

1.3.5. Principle 19: 'Manage fire risks'

Table 19: Approach to managing impacts of land access principle 19 - WRL performance for reporting period

Principle 19	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
Manage fire risks An electricity transmission company will take all reasonable measures to identify and mitigate fire risks associated with accessing and using land for transmission and will act in accordance with its own bushfire management plans.		 As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.

1.3.6. Principle 20: 'Manage COVID and other health risks'

Table 20: Approach to managing impacts of land access principle 20 - WRL performance for reporting period

Principle 20	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
Manage COVID and other health risks An electricity transmission company will ensure that all its activities on the land are undertaken in accordance with all relevant Commonwealth, State and Local Government laws. These activities are to be conducted in a proper, efficient and effective manner.		 As per 1 December 2022 report (Document number: WVTNP- ANS-000-PLC-MR-0004_1.0). No change.

1.4. Managing complaints and disputes effectively and fairly

Qualitative assessment of performance in relation to principles 21 and 22 can be found in the tables below.

1.4.1. Principle 21: 'Implement effective complaint handling'

Table 21: Approach to managing complaints and disputes effectively and fairly principle 21 - WRL performance for reporting period

Principle 21	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
Implement effective complaint handling An electricity transmission company will implement effective complaint-handling processes and standards that meet current Australia and New Zealand standards for complaints handling. This process is to ensure honest, respectful, and timely responses to issues raised by landowners and parties interested in land affected by its land access.	 Publish clear steps to follow and relevant persons to contact to escalate complaints, for people who have concerns or are not satisfied with an electricity transmission company's response or actions. Such steps may be: Contact the designated land liaison officer (with contact details provided). If not satisfied, escalate concerns to a complaint resolution team (with an email address provided). If a complaint cannot be resolved following further internal investigation, contact the Energy and Water Ombudsman Victoria (EWOV). 	 As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

1.4.2. Principle 22: 'Offer dispute resolution'

Table 22: Approach to managing complaints and disputes effectively and fairly principle 22 - WRL performance for reporting period

Principle 22	ESC examples of actions by electricity transmission companies	WRL existing practice
Offer dispute resolution An electricity transmission company will offer third party dispute resolution to landowners and parties interested in land affected by its land access. An electricity transmission company will provide landowners and parties interested in land affected by its land access with details of the Energy and Water Ombudsman Victoria (EWOV) scheme. An electricity transmission company is encouraged to include provision for third party dispute resolution in its negotiated access agreements.	• EWOV may resolve disputes involving its electricity transmission company members.	• As per 1 December 2022 report (Document number: WVTNP-ANS-000- PLC-MR-0004_1.0). No change.
	 Where statutory access does not meet reasonable expectations under this Statement of Expectations, landowners and parties interested in land may pursue dispute resolution through EWOV. 	 As per 1 December 2022 report (Document number: WVTNP-ANS-000- PLC-MR-0004_1.0). No change.
	 Where a voluntary access agreement is in place, parties should utilise any third-party dispute resolution body nominated under their agreement. 	 As per 1 December 2022 report (Document number: WVTNP-ANS-000- PLC-MR-0004_1.0). No change.
