

Current and proposed evidence requirements for cold room (activity 43) upgrades

Activity scenarios	Requirements	Documentation	Current evidence requirements	Proposed evidence requirements
43A, 43B(i) and 43B(iii)	Proof of commercial transaction and energy consumer	Tax invoice	<p>A valid tax invoice for the work carried out must include:</p> <ul style="list-style-type: none"> the name, address, and Australian Business Number (ABN)/Australian Company Number (ACN) of the energy consumer the date of issue of the invoice the date of installation the installation address the name, address, and ABN of the upgrade manager business the itemised list of installed cold room parts including brand(s) and model(s) names. 	<p>A valid tax invoice for the work carried out must include:</p> <ul style="list-style-type: none"> the name, address, and Australian Business Number (ABN)/Australian Company Number (ACN) of the energy consumer the date of issue of the invoice the installation address the name, address, and ABN of the upgrade manager business the itemised list of installed cold room parts including brand(s) and model(s) names.

43A	Upgrade product(s)	Geo-tagged photographs of the installed parts	<p>The photographs must:</p> <ul style="list-style-type: none"> • show the nameplates of the electronic expansion valve (EEV) and superheat controller, and • show all installed parts in situ, connected and as part of the cold room system. 	<p>The photographs must:</p> <ul style="list-style-type: none"> • show the electronic expansion valve (EEV) and superheat controller, and • show all installed parts in situ, connected and as part of the refrigeration system
43B(i) and 43B(ii)	Upgrade product(s)	Technical/data sheet(s)	Technical/data sheet(s) detailing all installed parts which clearly show the brand name and model for each of the installed parts	<p>Technical/data sheet(s) detailing all installed parts which clearly show the brand name and model for each of the installed parts.</p> <p>Where multiple cold rooms are served by shared compressor(s) and/or condenser(s), a schematic diagram (e.g. a single line diagram) of the refrigeration system.</p>
43B(i) and 43B(ii)	Upgrade product(s)	<p>Geo-tagged photographs of the installed parts</p> <p>Manufacturer document listing installed parts</p>	<p>The photographs must:</p> <ul style="list-style-type: none"> • show the nameplate of each of the installed parts • show all installed parts in situ, connected and as part of the cold room system. 	<p>EITHER:</p> <ul style="list-style-type: none"> • Photographs showing: <ul style="list-style-type: none"> – the nameplate of each of the installed parts, and – all installed parts in situ, connected and as part of the refrigeration system. <p>OR</p> <ul style="list-style-type: none"> • manufacturer document (e.g. bill of materials) listing installed parts,

				<ul style="list-style-type: none"> • photograph of unit name plate, and • photograph showing all installed parts in situ, connected and as part of the refrigeration system.
43A, 43B(i) and 43B(iii)	Temperature factor	Geo-tagged photograph of the thermostat controlling the installed cold room system.	The photograph must clearly show the room temperature set point and superheat set point on responsive controller display.	The photograph must clearly show the cold room temperature set point on the responsive controller display.
