NOTES ON THE DATA

Public Registers

Some expired or invalid VEECs were not migrated from the old VEU Registry to the new system. Therefore, total amounts reported in the new VEECs Register do not represent total amounts of VEECs created over the life of the program.

Changes to the Public Registers will not be updated in real time. The new Public Registers will update overnight each day.

The following statuses no longer exist in the new Registry and won't appear in the VEEC Summary:

- Pending Transfer
- Pending Obligatory Surrender
- Pending Mandatory Surrender
- Pending Voluntary Surrender

Account management

Please be aware that some changes to scheme participants require approval by the commission before they can be seen in your account.

Search the Register of Victorian energy efficiency certificates (VEECs)

- Expand the filter pane on the right to access filters
- Click on the visuals to see additional filters
- Filters will apply to both the VEEC Summary information and the VEEC Selection
- Right-click on an entry in the VEEC Selection Summary table and select 'Drill through summary'. From VEEC details summary page, click 'Drill through' again to see history

To export information:

- Hover your mouse over the visual, select the three dots in the corner to find 'More data'.

Notes:

- Some expired or invalid VEECs were not migrated from the old VEU Registry to the new system. Therefore, total amounts reported here do not represent total amounts of VEECs created over the life of the program.
- VEEC statuses may not be updated in real time; most VEEC creations, registrations and transfers are processed in batches with one running overnight and one during the day.
- If you encounter a token expiry error, simply refresh the page and the report will reload as expected.

Detailed instructions

Follow the instructions below to filter and export data in the VEU public registers and within the “export my data” tab within your account.

Function	Step-by-step process
Filtering	<p>Search in a filter</p> <p>Sometimes a filter can have a long list of values. Use the search box to find and select the value you want.</p>  <p>Clear a filter</p> <p>To reset a filter to (All), clear it by selecting the eraser icon next to the filter name.</p> 
Drill through	<p>Some registers will have additional information available via a ‘drill through’ feature. You can access drill through features by right-clicking a data point and selecting ‘Drill through’ in the menu.</p> 

	<p>For example, in the VEECs Register, you can drill through an entry in the VEEC Selection Summary table to see VEEC details. From there, you can drill through a second time to view the VEEC history information.</p>
Exporting Data	<p>To export your selected data, hover your mouse over the visual, select the More options (...) dropdown in the upper right corner, and select 'Export data'.</p>  <p>If you added any filters to the data, then the export will be filtered as well. Downloads will be available as .xlsx files.</p>
Focus Mode	<p>Focus mode lets you expand (pop out) a visual to see more detail.</p> <p>To open a section in focus mode, hover over the visual and select the Focus mode icon.</p> 
Spotlight Mode	<p>Spotlight mode lets you draw attention to a dataset.</p> <p>Hover your mouse over the visual that you want to highlight. Select the More options (...) dropdown, then choose Spotlight.</p> 
Show as Table	<p>To change your view of data to show a simple table, select the dataset that you want to view. Select the More options (...) dropdown, then choose Show as a table.</p>
