

Maroondah City Council

Group: metropolitan

This fact sheet uses graphs and data to examine this council's revenue, expenditure and financial sustainability over recent years. The information is intended to help readers understand the impacts of rate capping, which was introduced in 2016–17 to restrict the amount councils can increase their general rates and municipal charges each financial year.

You can compare this council's data against its 'group' by looking at the fact sheet for metropolitan councils. Further information is available at <http://www.esc.vic.gov.au/outcomes-reports>. You'll find an interactive version of this fact sheet, a reader's guide to help you understand key terms and information about the sector as a whole.

Yes	Yes	Yes

How have rates changed for different ratepayers?

Council's rating strategy 2024–25

Council levies 4 differential rates for different types of property and uses service charges to recover the cost of waste services. More information about council's differential rate categories and charges can be found in council's adopted budget.

Distribution of rates increases and decreases

The applicable rate cap is applied to council's average rate, which means some individual rates increased by more and some increased by less than the applicable cap (or even decreased).

Total	199.5		179.9		173.9		171.1	

Maroondah City Council's total revenue decreased in real terms between 2020–21 and 2023–24, reflecting decreases in revenue from grants and 'other' revenue.

However, the decrease in grant revenue in 2023–24 partially reflects the financial assistance grants being received later than usual. Council would have received \$16.2 million in grant revenue if the payment was received before the end of the financial year.

Rates and charges, and user fees and statutory fees and fines were the largest sources of council's revenue, accounting for 77 per cent of total revenue between 2020–21 and 2023–24.

Revenue per person (2023–24 dollars)

In terms of revenue per person (which adjusts for population growth), council's revenue from user fees and statutory fees and fines increased in real terms between 2020–21 and 2023–24, while all other revenue sources decreased.

Expenditure

See the reader's guide for data sources and useful information. Where noted, the numbers in this fact sheet have been adjusted for inflation and are expressed in 2023–24 dollars.

Total	93.8	49.7	44.8	34.7

Maroondah City Council's spending on asset renewal trended downwards in real terms, despite fluctuating between 2020–21 and 2023–24. Asset renewal accounted for the highest share of capital expenditure over this period (45 per cent).

Council's spending on asset upgrades increased in real terms between 2020–21 and 2023–24, while spending on new assets declined.

Is council renewing its assets (such as roads, parks and buildings)?

Council assets: comparing renewal and upgrade expenditure with depreciation (2023–24 dollars)

Renewal & upgrade expenditure as a percentage of depreciation

2020–21	119%
2021–22	135%
2022–23	139%
2023–24	95%
2024–25	115% (forecast data)
2025–26	111% (forecast data)

Council's spending on the renewal and upgrade of its assets trended downwards in real terms between 2021–22 and 2023–24, following a peak in 2021–22.

Renewal and upgrade expenditure decreased below the amount of depreciation (the decline in value of council's assets caused by age and use) in 2023–24. This spending was forecast to increase above the amount of depreciation in 2024–25 and 2025–26.

Which service areas have experienced the biggest changes in spending?

Source: Victorian Local Government Grants Commission (unaudited). Average annual change between 2020–21 and 2023–24. Excludes small service areas (<5% of expenditure). Council Annual Reports may provide further explanation of these changes.

Has there been a change in service quality and community satisfaction?

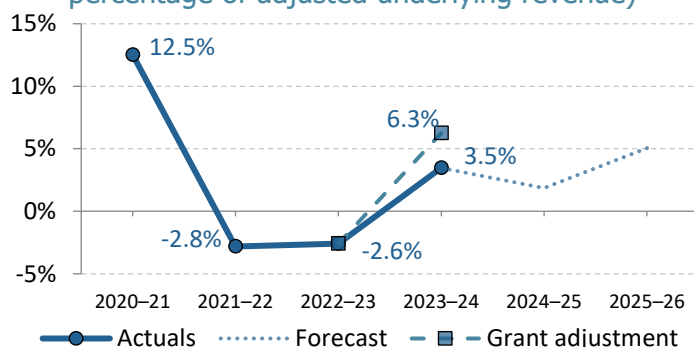

Financial position

See the reader's guide for data sources and useful information. Where noted, the numbers in this fact sheet have been adjusted for inflation and are expressed in 2023–24 dollars.

Is council operating sustainably?

Adjusted underlying result
(adjusted underlying surplus or deficit as a percentage of adjusted underlying revenue)

Between 2020–21 and 2023–24, Maroondah City Council reported an average **adjusted underlying result** of **2.7 per cent**. The average result would have been **3.4 per cent**, if the timing of the financial assistance grants payment in 2023–24 was consistent with previous years. An ongoing positive result suggests there is enough ongoing revenue to continue to fund the current level of service provision.

Working capital (current assets as a percentage of current liabilities)

Council could meet its current financial obligations with a reported average **working capital ratio** of **163 per cent** between 2020–21 and 2023–24.

Indebtedness (non-current liabilities as a percentage of own-source revenue)

Between 2020–21 and 2023–24, council reported an average **indebtedness ratio** of **24.5 per cent**. The lower the percentage, the greater a council's ability to repay debt from revenue it controls.

Note: The year-on-year changes in the financial indicators can be affected by the timing of financial assistance grant payments. We have estimated the impact of a change in the timing of these payments for the 2023–24 adjusted underlying result. Please see the reader's guide for more information.
