Schedule 2 – Embedded Network retail licence conditions

1. Compliance with laws and regulatory instruments

1.1. Without limiting the application of clause 6 of the Standard Electricity Licence Conditions, where all or part of a law is restricted in its application to:

- (a) a retailer that is a financially responsible retailer; or
- (b) a customer that is supplied electricity from a connection point at which the electricity last leaves a supply facility owned or operated by a Distribution Company,

yet is capable of being applied with modification to the Licensee in the context of on-selling electricity within an Embedded Network, the Licensee must comply with such law with only those modifications required to enable compliance in the context of on-selling electricity within an Embedded Network.

For example, and without limitation, sections 35, 36, 39, 40B, 46C, 46D and Division 5C – 40SA to 40SW of the Act and any associated Orders made under those sections apply in respect of the Licensee, and the Licensee must comply with those sections and associated Orders as if an Embedded Network customer was a 'relevant customer' or a 'prescribed customer', and the Licensee was a 'relevant licensee' for the purposes of those sections and associated Orders.

2. Customer protections

- 2.1 The Licensee must comply with clause 74 of the Energy Retail Code of Practice as if it were an Exempt Person to which that clause applies.
- 2.2 The Licensee must not require a Residential Customer to provide a security deposit.
- 2.3 Within 5 Business Days after being advised by a customer that a life support resident resides, or is intending to reside, at the customer's premises, advise the Exempt Distributor that a life support resident resides, or is intending to reside, at the customer's premises.
- 2.4 Within one Business Day after receiving relevant information about the life support equipment requirements for the customer's premises (including medical confirmation) or any relevant contact details, provide the same information to the Exempt Distributor, unless the relevant information was provided to the Retailer by the Exempt Distributor.

Note 1: these obligations in clauses 2.3 and 2.4 are in addition to those obligations in respect of the registration of life support customer details and that must be met by reason of the Licensee complying with clause 1.1 of this Schedule.

Note 2: In these clauses 2.3 and 2.4 the terms “life support resident”, “life support equipment”, and “medical confirmation” have the same meaning as in the Act.

3. Contestability

- 3.1 The Licensee must provide information to customers about the customer’s rights to choose to purchase electricity from another licenced Retailer and the options for metering that would allow that choice. This information must be provided before obtaining explicit informed consent to enter a market retail contract with the Licensee.
- 3.2 The Licensee must not engage in any conduct that prevents a customer connected to an Embedded Network served by the Licensee from purchasing electricity from a licensed retailer of the customer’s choice.

4. Distribution Services

- 4.1 The Licensee must not enter into a contract for the sale of electricity with a customer unless the contract also provides for the provision of, or procurement by the Licensee of, related services for the distribution or supply of electricity within both:
- (a) the network of the Distribution Company within whose licenced distribution area the customer is located; and
 - (b) the Embedded Network to which the customer is connected, or from which the customer is otherwise supplied electricity.
