

Minimum feed-in tariff review 2022-23

Submission received through Engage Victoria

Date submitted: 21 December 2021

Submission written by: Anonymous 9

From 2 December 2021, we began accepting submissions on our Minimum feed-in tariff review 2022-23 via Engage Victoria (www.engage.vic.gov.au). On this website, people were given the opportunity to send us a response to a set of questions we provided.

The social cost of carbon

The value of reducing carbon should be reflected in a much higher return payment for people providing solar from their homes to the grid. The cost of climate change to all aspects of society and our environment is so underestimated.

Human health costs

The value of reducing carbon should be reflected in a much higher return payment for people providing solar from their homes to the grid. The cost of climate change to all aspects of society and our environment is so underestimated.
