

Minimum feed-in tariff 2023-24

Submission received through Engage Victoria

Date submitted: 8/1/2023

Submission written by: Anonymous 15

From December 2022, we began accepting submissions on our Minimum feed-in tariff review 2023-24 via Engage Victoria (www.engage.vic.gov.au). On this website, people were given the opportunity to send us a response to a set of questions we provided.

What parts of our proposed methodology for setting the minimum single and time-varying feed-in tariff rates do you consider are appropriate?

Nothing

What parts of our proposed methodology should we change?

Do not lower feed in tariff, once again government looking after big business

For our overall methodology, or parts of it, what alternative methodologies should we consider?

Stop lining the pockets of energy companies in a world where everything continues to get more expensive why should a solar owner be supplying power back to the grid at a lower rate?
