### *General Matters*

**Are there matters that you would like to raise, including methodological approaches to other cost components not mentioned in this paper?**

Keep it simple and automatic for elderly non English speaking and time poor

### *Network costs*

**Are there any other matters proposed by distribution network service providers, or the Australian Energy Regulator that you think we should consider in setting the Victorian Default Offer?**

Don't let suppliers sell overseas it puts up local prices

### *Free power period tariff*

**What are your views on the suitability of a regulated residential tariff with a free power period in Victoria?**

Good

*Other costs*

**Do you support our proposed approach to pass through the Australian Energy Market Operator's recently introduced 'Cyber Security & Resilience' fee and if implemented, the updated National Electricity Market Participant fee structure? If not, why, and what alternative approach should we consider?**

Nb to be cyber protected
