

Victorian Default Offer 2022

Submission received via Engage Victoria on next steps for the Victorian Default Offer

Date submitted: 3 June 2021

Submission prepared by: Anonymous

What do you think about our approach for the next Victorian Default Offer price determination to apply from 1 January 2022?

The shorter peak period is much more realistic. Previously basically all waking hours were peak period.

I would like to see AusNet Services fees reduced, given power is generated in the Latrobe Valley I can't see why power users in Gippsland pay higher network charges than metro customers. There is only so much a customer can do to impact their electricity bill when in an AusNet Services area.
