Question 1. Do you have any concerns regarding the proposed revocation of the Public Lighting Code of Practice? Please elaborate.

NA

Question 2. Are there any other provisions in the Public Lighting Code of Practice we should consider retaining and transferring (other than those already proposed to be)? Please elaborate.

NA

Question 3. Would public lighting customers prefer only negotiating specific service standards with distributors, rather than having minimum obligations for distributors (by transferring service standards to the Electricity Distribution Code of Practice)? Please elaborate

As the Public Lighting Code is being phased out and its obligations moved into the Electricity Distribution Code of Practice, there's an opportunity to modernize standards to include smart lighting technologies like motion sensors.

Question 4. Do you have any concerns regarding the transferred provisions to the Electricity Distribution Code of Practice starting from 1 January 2026? Please elaborate.

NA.
