SCHEDULE 1 - DEFINITIONS AND INTERPRETATION ............................................. 13
SCHEDULE 2 - VARIATIONS TO THE LICENCE ................................................... 18
1. DEFINITIONS AND INTERPRETATION

1.1 In this licence, words and phrases appearing like this have the meaning given to them in part 1 of schedule 1.

1.2 This licence must be interpreted in accordance with the rules set out in part 2 of schedule 1.

2. GRANT OF LICENCE

2.1 Subject to:

(a) the conditions set out in this licence; and

(b) any prohibition on the Licensee from selling electricity to persons or classes of persons specified by any order in force under section 23 of the Act and deemed by that section to be included in a condition of this licence,

the Licensee is authorised to sell electricity.

2.2 Under this licence, the Licensee may not sell electricity through the wholesale electricity market.

3. TERM

3.1 This licence first had effect on 1 July 1998 and has been varied on the dates set out in schedule 2.

3.2 The Commission may revoke this licence in accordance with clauses 3.3 or 3.4.

3.3 The Commission may at any time agree with the Licensee that this licence should be revoked, in which case the term of this licence ends on the day agreed.

3.4 The Commission may at any time give notice of revocation in accordance with clauses 3.5 and 3.6 to the Licensee if:

(a) the Licensee does not comply with an enforcement order or an undertaking; and

(b) the Commission is satisfied that revocation of this licence is necessary having regard to the objectives,

in which case, subject to clause 3.7, the term of this licence ends on the expiration of the period of the notice.

3.5 If the enforcement order or undertaking relates to:

(a) a breach of clause 4 or 5.1; or
(b) a breach of this licence which in the Commission’s opinion is causing serious and immediate detriment to customers,

the Commission must give at least 5 business days notice of revocation to the Licensee under clause 3.4.

3.6 If clause 3.5 does not apply, the Commission must give at least 20 business days notice of revocation to the Licensee under clause 3.4.

3.7 The term of this licence does not end at the expiration of the period of a notice of revocation given under clause 3.4 if, before the expiration, the Licensee complies with the enforcement order or the undertaking (as the case may be).

4. ELECTRICITY PURCHASE ARRANGEMENTS

4.1 The Licensee must have in place agreements or arrangements for the purchase of electricity through the wholesale electricity market or otherwise, and any necessary related authorisations, as are required if the Licensee is to be able to perform its obligations under contracts for the sale of electricity with customers.

4.2 The Licensee is deemed to comply with clause 4.1 if it is registered with NEMMCO as a ‘Customer’ under the National Electricity Code.

5. ENERGY ONLY CONTRACTS AND CUSTOMERS IN EMBEDDED NETWORKS

5.1 The Licensee must not enter into a contract for the sale of electricity with a relevant customer unless the contract also provides for the provision or procurement by the Licensee of distribution services.

5.2 Clause 5.1 does not apply if:

(a) the relevant customer has informed the Licensee that the relevant customer has entered into an agreement with a licensed distributor for the provision of distribution services; or

(b) the relevant customer takes an intermediary distribution or supply of electricity (as defined in the General Exemption Order) from a distributor exempt from the requirement to hold a distribution licence under the General Exemption Order.

6. USE OF SYSTEM AGREEMENTS

6.1 Subject to clause 6.4, the Licensee must have a use of system agreement with each distributor in respect of whose distribution area the supply point of any customer of the Licensee is located. Each use of system agreement must be in writing.

6.2 If a distributor offers the Licensee a new form of default use of system agreement under clause 4.8 of its distribution licence, the Licensee must not unreasonably refuse to accept such an offer.
6.3 Any question as to whether a use of system agreement unreasonably discriminates, or has the effect of creating unreasonable discrimination, between retailers or between customers of any retailer, or whether a refusal to accept an offer of a new default use of system agreement is unreasonable, is to be decided by the Commission on the basis of the Commission’s opinion on the matter.1

6.4 If the Licensee is also a distributor, clause 6.1 does not require the Licensee to have a use of system agreement with itself. The Licensee instead must act on the notional basis that the Licensee’s retail business has and must comply with a use of system agreement with the Licensee’s distribution business. That notional use of system agreement must be in writing.

6.5 Clause 6.1 does not apply to the Licensee in respect of a distributor until 60 business days after the date on which the Commission first approved a default use of system agreement submitted to the Commission by the relevant distributor under its distribution licence.

7. CONTRACTS WITH CUSTOMERS

7.1 The Licensee must not enter into a contract for the sale of electricity with a relevant customer unless the terms and conditions of the contract expressly deal with each matter which is the subject of a term or condition of the Energy Retail Code. If a term or condition of the Energy Retail Code is incorporated by reference into the contract, it is taken to be expressly dealt with.

7.2 The Licensee must not enter into any contract for the sale of electricity with any domestic or small business customer at a tariff which is different from a tariff offered by the Licensee in accordance with its obligation under clause 8.1 unless the terms and conditions of the contract are materially different to the terms and conditions offered with that tariff.

7.3 Each term or condition of the Energy Retail Code is a term or condition with which a contract for the sale of electricity to a relevant customer must not be inconsistent.2

7.4 The Licensee must comply with the terms and conditions of any contract for the sale of electricity with a relevant customer.

8. OBLIGATION TO OFFER TO SELL

8.1 The Licensee must offer to supply and sell electricity to any domestic or small business customer in relation to the Licensee:

---

1 This provision may be amended if the Commission approves and publishes in final form its new Electricity Ring-Fencing Guideline, so that the discrimination terminology in this provision is more consistent with the terminology in that guideline.

2 For the purposes of section 36(1)(b) of the Act.
(a) at tariffs determined by the Licensee and published by the Licensee in the Government Gazette at least 2 months before they take effect; and

(b) on terms and conditions determined by the Licensee and approved by the Commission and published by the Licensee in the Government Gazette at least 2 months before they take effect.

8.2 The obligation of the Licensee under clause 8.1 does not apply to the extent nominated by the Commission in any communication given to the Licensee.

8.3 An offer in accordance with clause 8.1 must be made to a domestic or small business customer by the Licensee within ten business days after a request from the customer.

8.4 If a domestic or small business customer accepts an offer made by the Licensee in accordance with clause 8.1, the Licensee must comply with the resulting contract.

8.5 This clause 8 applies subject to section 35 of the Act and to any order in force under section 13 of the Act.

9. INFORMATION TO CUSTOMERS

9.1 The Licensee must include at least the following information in a bill issued to the customer for the supply or sale of electricity:

(a) the National Meter Identifier (NMI) assigned to the customer’s metering installation and the NMI checksum or, if there is no assigned NMI, the meter number or another unique identifying mark assigned to the metering installation;

(b) the relevant tariff or tariffs applicable to the customer;

(c) if the Licensee directly passes through network charges to the customer, the separate amount of the network charge; and

(d) information concerning greenhouse gas emissions connected with the generation of electricity supplied to the customer or the generation of electricity in general.

9.2 If a variation is made to the tariff or to terms or conditions of a contract and unless notice of the variation has been previously provided to a customer, the Licensee must include with the customer’s next bill, or otherwise as soon as practicable, a statement setting out details of the variation.

9.3 Unless clause 12 applies, the Licensee must give notice to a customer who is party to a deemed contract with the Licensee on or as soon as practicable after becoming aware of the deemed contract which:

(a) informs the customer that there is deemed to be a contract between the customer and the Licensee for the supply and sale of electricity;

(b) sets out the tariff and summarises other terms and conditions under the deemed contract;
(c) describes the methods by which the deemed contract may be terminated and related terms and conditions; and

(d) outlines the options available to the customer.

9.4 Where the Act or this licence requires or has required the Licensee to publish the Licensee’s tariffs in the Government Gazette, the Licensee must also publish on the same day or as soon as practicable in a newspaper circulating generally in Victoria:

(a) the tariffs; and

(b) a statement that the Licensee’s related terms and conditions are available on request and free of charge in English and, if the Licensee has a significant number of customers from the same non-English speaking background, in such other languages as are agreed with the Commission (and the terms and conditions must actually be available in those languages).

9.5 If the contract between a customer and a retailer is a fixed term contract, prior to the expiry of the fixed term the retailer must notify the customer:

(a) that the contract is due to expire;

(b) when the expiry will occur;

(c) the tariff and terms and conditions that will apply to the customer beyond the expiry of the contract if the customer does not exercise any other option, which the retailer may determine at its discretion; and

(d) what other options are available to the customer.

The information must be given no sooner than two months before, and no later than one month before, the expiration of the fixed term (unless the fixed term is less than one month in which case the information must be given to the customer at the commencement of the term).

9.6 Where the Licensee has financial responsibility in the wholesale electricity market for a NMI relating to premises which it knows to be vacant, the Licensee must, if it elects to leave the premises energised, deliver to the premises an information package relating to offers of retail contracts which are available.

10. PAYMENT METHODS

10.1 The Licensee must not implement a pre-payment meter scheme without the prior approval of the Commission.

10.2 The Licensee must notify the Commission at least 20 business days prior to the termination of an arrangement with any agency or payment outlet through which customers of the Licensee may pay bills.
11. COMMUNITY SERVICE OBLIGATION AGREEMENTS

If so directed by the Secretary to the Department of Human Services, the Licensee must enter into an agreement with the State for the provision of community services on terms and conditions determined or agreed in accordance with section 47 of the Act.

12. RETAILER OF LAST RESORT

12.1 On or before a date to be nominated by the Commission in a communication given to the Licensee, the Licensee must submit to the Commission proposed tariffs, terms and conditions upon which the Licensee would sell electricity in accordance with the requirement under clause 12.2.

12.2 Subject to clause 12.3, the Licensee must sell electricity to a customer at tariffs and on terms and conditions approved or determined by the Commission under section 27 of the Act.

12.3 Despite clause 7.1, in approving proposed terms and conditions under clause 12.2 the Commission may approve terms and conditions which do not deal with the subject matter of all of the provisions of the Energy Retail Code.

12.4 The requirement under clause 12.2:

(a) applies only if the Licensee is so directed by the Commission in a communication given to the Licensee; and

(b) imposes an obligation on the Licensee to sell electricity to a customer which:

(1) commences when a last resort event occurs in respect of the customer’s other retailer; and

(2) ends:

(A) after three months;

(B) when the customer advises the Licensee in writing that the sale is no longer required;

(C) when the customer transfers to another retailer; or

(D) when the customer enters into a new contract for the sale of electricity with the Licensee,

whichever occurs first.

12.5 As soon as practicable after being notified by the Commission or otherwise becoming aware of its obligation to a customer under clause 12.2, the Licensee must give the customer notice in writing:

(a) that a last resort event has occurred in respect of the other retailer;
that, as a result, the Licensee and the customer are deemed to have entered into a contract for the sale of electricity under section 27 of the Act;

(c) of the date the deemed contract commenced;

(d) of the tariff and the terms and conditions of the deemed contract;

(e) that the customer’s meter has been or will be read, or an estimate will be made, as at the date the deemed contract commenced so that it can be established what amount of electricity has been sold to the customer by the other retailer prior to the occurrence of the last resort event and what amount of electricity has been and will be sold to the customer by the Licensee after the occurrence of the last resort event;

(f) of that meter reading or estimated meter reading. Notice of the meter reading or estimated meter reading may be given after notice of the other matters contemplated by this clause 12.5 is required to be given;

(g) whether any debt owed by the customer to the other retailer or by the other retailer to the customer, as the case may be, will continue to be so owed and, if it will not, to whom and by whom it will be owed;

(i) of how and where to obtain further information.

12.6 If the Licensee must publish notice of tariffs, terms and conditions in the Government Gazette under section 27(8) of the Act, the Licensee must do so as soon as practicable after the Commission approves the tariffs, terms and conditions.

13. CO-OPERATION WITH VENCORP

13.1 As soon as practicable after any request made by VENCorp, the Licensee must supply such information to VENCorp as VENCorp may reasonably require to perform its functions and exercise its powers under the Act.
