

Gannawarra Shire Council

Group: Small Shire

This fact sheet uses graphs and other data to show whether there have been any significant changes in this council's services, infrastructure and financial outcomes since the introduction of rate capping — a system that restricts the amount a council can increase its general rates and municipal charges in each financial year.

A reader's guide is available to help you understand the terms used in this fact sheet. You can compare this council's data against its 'group' by looking at the fact sheet for small shires. View the reader's guide, all available fact sheets and information for the sector as a whole at https://www.esc.vic.gov.au/outcomes-reports.

| Submitted an application for a higher cap for 2016–17 or 2017–18? | No |

Rates

What has happened to average rates and charges?

■ General rates and municipal charges (capped from 2016–17)

■ Other rates and charges (uncapped)

| Year | Average rates and charges | Applicable rate cap |
|---------|------------------------------------|---------------------|
| 2014–15 | \$1,650 | n/a |
| 2015–16 | \$1,728 | n/a |
| 2016–17 | \$1,782 | 2.50% |
| 2017–18 | \$1,825 | 2.00% |

Rates (continued)

See the reader's guide for data sources and useful information. Note: The numbers in this fact sheet have not been adjusted for inflation.

Have council's average rates complied with the applicable rate caps?

| 2016–17 (2.50%) | 2017–18 (2.00%) | 2018–19 (2.25%) |
|-----------------|-----------------|-----------------|
| Yes | Yes | Yes |

How have rates changed for individual ratepayers?

Distribution of rates increases and decreases in revaluation years

The applicable rate cap is applied to council's average rate, which means some individual rates increased by more and some increased by less (or even decreased).

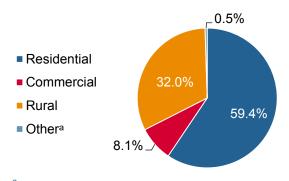

| 2016–17 | 30% | 28% | 42% | |
|---------|-----|-----|-----|--|
| 2018–19 | 36% | 24% | 39% | |

- % of rates notices decreasing
- ■% of rates notices increasing by less than the applicable cap
 □% of rates notices increasing by more than the applicable cap

Note: In 2017–18, properties were not revalued so most rates notices would have increased by a similar percentage.

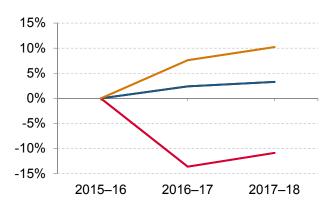

Ratepayers by property class

Proportion of rates and charges revenue from each property class in 2017–18

^a Category has been omitted from the line chart

Percentage change in average rates and charges since 2015–16

Source: Victoria Grants Commission (unaudited data). Includes both capped and uncapped rates and charges.

Residential ratepayers pay the majority of Gannawarra Shire Council's rates and charges. This group of ratepayers, on average, experienced a 3.3 per cent increase in their rates notices between 2015–16 and 2017–18. The difference in rate increases can be due to relative changes in property valuations, and changes in property numbers, the council's rating structure, and uncapped rates and charges. Council's average rates and charges (a combination of all classes) increased from \$1,728 to \$1,825 (5.6 per cent) over the same period.

Where is council's money coming from?

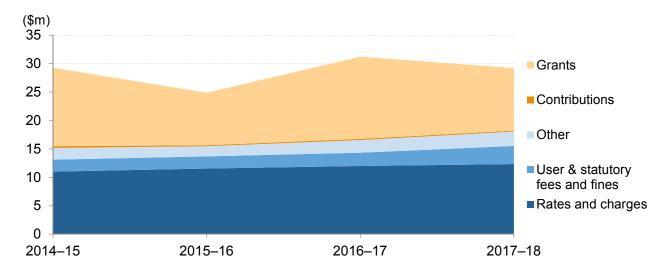

| Revenue source | Before rate capping (average of 2014–15 and 2015–16) | | After rate capping (average of 2016–17 and 2017–18) | |
|----------------------------------------|------------------------------------------------------------|--------------|-----------------------------------------------------------|--------------|
| | \$m | % of revenue | \$m | % of revenue |
| Rates and charges | 11.3 | 42 | 12.2 | 40 |
| Grants | 11.5 | 43 | 12.7 | 42 |
| User fees and statutory fees and fines | 2.1 | 8 | 2.8 | 9 |
| Contributions | 0.2 | 1 | 0.2 | 1 |
| Other | 1.9 | 7 | 2.4 | 8 |
| Total | 27.1 | 100 | 30.2 | 100 |

Gannawarra Shire Council's average revenue from all sources (except contributions) increased in the two years following the introduction of rate capping compared to the two years before rate capping.

The proportions of council's revenue from each source remained relatively stable after the introduction of rate capping except for the decrease in revenue from rates and charges.

Note: Revenue from grants may have been affected by the advance payment of annual Commonwealth grant allocations in 2014–15, 2016–17 and 2017–18.

Revenue growth by source

How much money is council spending?

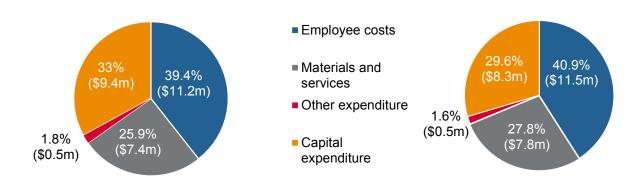

| Year | Operating expenditure | Capital expenditure | Operating expenditure per head of population | Capital expenditure per head of population |
|---------|-----------------------|---------------------|----------------------------------------------|-----------------------------------------------|
| 2014–15 | \$19.1m | \$9.9m | \$1,816 | \$942 |
| 2015–16 | \$19.1m | \$8.9m | \$1,812 | \$843 |
| 2016–17 | \$20.1m | \$8.6m | \$1,899 | \$814 |
| 2017–18 | \$19.4m | \$8m | \$1,834 | \$756 |

Gannawarra Shire Council's operating expenses have been relatively stable in recent years, trending slightly upward over time, driven by small increases in employee costs and spending on materials and services in the two years after rate capping was introduced. Capital expenditure has also been relatively stable in recent years, trending slightly downward over time.

How is council spending its money?

Average expenditure by category in the 2 years before rate capping

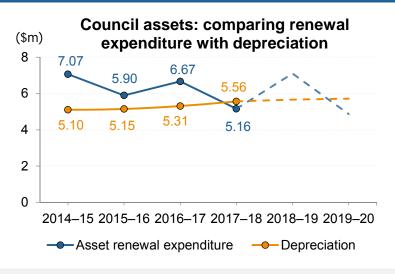

Average expenditure by category in the 2 years after rate capping

There was a change in the composition of Gannawarra Shire Council's expenditure, reflecting a reduction in average capital expenditure in the two years after rate capping was introduced. Average employee costs and spending on materials and services increased moderately.

Infrastructure

Is council renewing its assets (such as roads, parks and buildings)?

| Year | Asset renewal expenditure as a percentage of depreciation (%) | |
|---------|---------------------------------------------------------------|--|
| 2014–15 | 139 | |
| 2015–16 | 115 | |
| 2016–17 | 126 | |
| 2017–18 | 93 | |
| 2018–19 | 125 (forecast data) | |
| 2019–20 | 85 (forecast data) | |

Gannawarra Shire Council's spending on the renewal of its assets has been trending downward in recent years, dropping below the amount of depreciation (the decline in value of its assets caused by age and use) in 2017–18. Renewal expenditure is planned to increase back above 100 per cent of depreciation in 2018–19.

Has council's capital expenditure pattern changed?

| Capital exp | enditure | | | | Council's spending on asset |
|-------------------------------------------|----------|------------|-----|---------------------------------------------------------|-----------------------------------------------------------|
| 2044 45 and 2045 40) 2046 47 and 2047 40) | | | | renewal remained a similar share of capital expenditure | |
| | \$m | % of total | \$m | % of total | despite decreasing in |
| Renewal | 6.5 | 69 | 5.9 | 71 | average dollars spent in the two years after rate capping |
| New | 1.7 | 18 | 0.7 | 9 | was introduced. Spending |
| Upgrade | 1.1 | 11 | 1.7 | 20 | on new, upgrade and expansion projects shows |
| Expansion | 0.2 | 2 | 0.0 | 0 | peaks and troughs, which is |
| Total | 9.4 | 100 | 8.3 | 100 | typical of small shires. |

Services

Which service areas is council spending its money in?

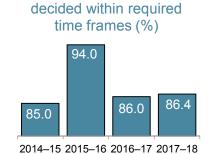

| Expenditure by function | Before rate capping (average 2014–15 and 2015–16) | | After rate capping (average 2016–17 and 2017–18) | |
|--------------------------------|---------------------------------------------------|------------------|--------------------------------------------------|------------------|
| | \$ per person | % of expenditure | \$ per person | % of expenditure |
| Local roads and bridges | 594 | 26.0 | 520 | 21.8 |
| Governance | 440 | 19.3 | 511 | 21.4 |
| Recreation and culture | 282 | 12.3 | 290 | 12.2 |
| Family and community services | 277 | 12.1 | 288 | 12.1 |
| Business and economic services | 167 | 7.3 | 244 | 10.2 |
| Aged and disabled services | 210 | 9.2 | 214 | 9.0 |
| Waste management | 163 | 7.1 | 162 | 6.8 |
| Traffic and street management | 82 | 3.6 | 77 | 3.2 |
| Environment | 70 | 3.1 | 76 | 3.2 |
| Other | 0 | 0.0 | 0 | 0.0 |

Which service areas have experienced the biggest changes in spending?

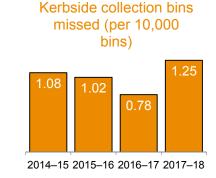

Source: Victoria Grants Commission (unaudited). Council Annual Reports may provide further explanation of these expenditure changes.

Has there been a change in service quality? (selected services only)

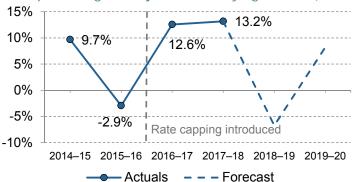

Planning applications

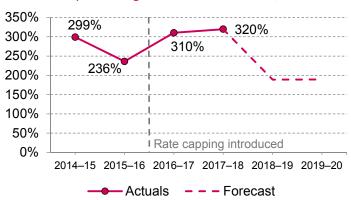

Is council operating sustainably?

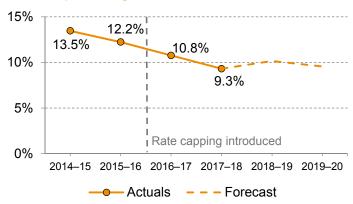

Working capital (current assets as a percentage of current liabilities)

Indebtedness (non-current liabilities as a percentage of own-source revenue)

Between 2014–15 and 2017–18, Gannawarra Shire Council reported an average adjusted underlying result of 8 per cent. A positive result suggests that there is enough ongoing revenue to continue to fund the current level of service provision.

Council is able to meet its short-term financial obligations with an average working capital ratio of 291 per cent between 2014–15 and 2017–18.

The falling indebtedness ratio reflects increased revenue and the repayment of some borrowings.

Note: Some of the year on year change in the adjusted underlying result and the working capital ratio may be due to the timing of Commonwealth grant payments.
