

Wodonga City Council

Group: regional city

This fact sheet uses graphs and data to examine this council's revenue, expenditure and financial sustainability over recent years. The information aims to help readers understand the impacts of rate capping. This was introduced in 2016–17 to restrict the amount councils can increase their general rates and municipal charges each financial year.

You can compare this council's data against its 'group' by looking at the fact sheet for regional city councils. Further information is available at http://www.esc.vic.gov.au/outcomes-reports. You'll find an interactive version of this fact sheet, a reader's guide to help you understand key terms and information about the sector as a whole.

Did rates change for different ratepayers?

Council's rating strategy 2022-23

Council applies 7 differential rates for different types of property and recovers the cost of waste services using service charges. The adopted budget contains more information about rate categories and charges.

Distribution of rates increases and decreases

The applicable rate cap is applied to council's average rate. So, some individual rates increased by more and some increased by less than the applicable cap (or even decreased).
