### Group: regional city

This fact sheet uses graphs and data to examine this council's revenue, expenditure and financial sustainability over recent years. The information is intended to help readers understand the impacts of rate capping, which was introduced in 2016–17 to restrict the amount councils can increase their general rates and municipal charges each financial year.

You can compare this council's data against its 'group' by looking at the fact sheet for regional city councils. Further information is available at <a href="http://www.esc.vic.gov.au/outcomes-reports">http://www.esc.vic.gov.au/outcomes-reports</a>. You'll find an interactive version of this fact sheet, a reader's guide to help you understand key terms and information about the sector as a whole.

### How have rates changed for different ratepayers?

#### Council's rating strategy 2024–25

Council levies 4 differential rates for different types of property, a municipal charge and uses service charges to recover the cost of waste services. More information about council's differential rate categories and charges can be found in council's adopted budget.

#### Distribution of rates increases and decreases

The applicable rate cap is applied to council's average rate, which means some individual rates increased by more and some increased by less than the applicable cap (or even decreased).

## Revenue

See the reader's guide for data sources and useful information. Where noted, the numbers in this fact sheet have been adjusted for inflation and are expressed in 2023–24 dollars.

#### Where is council's money coming from?

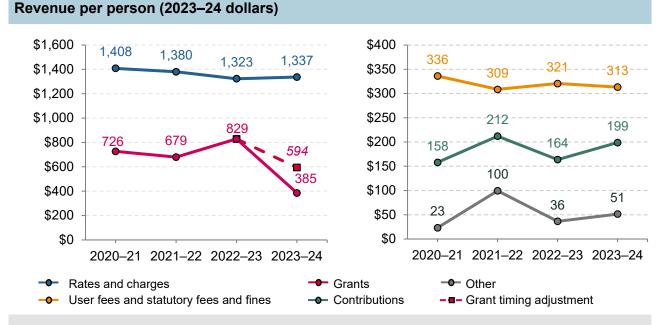

**Revenue** (2023–24 \$m and % of total revenue)

	2020–21		2021–22		2022–23		2023	3–24
	\$m		\$m		\$m		\$m

Total	181.6		183.6		184.3		158.0	

Greater Shepparton City Council's total revenue decreased in real terms between 2020–21 and 2023–24, reflecting decreases in revenue from grants and rates and charges.

However, the decrease in grant revenue in 2023–24 partially reflects the financial assistance grants being received later than usual. Council would have received \$41.1 million in grant revenue if the payment was received before the end of the financial year.

Rates and charges, and grants were the largest sources of council's revenue, accounting for 78 per cent of total revenue between 2020–21 and 2023–24.

In terms of revenue per person (which adjusts for population growth), council's revenue from rates and charges, user fees and statutory fees and fines, and grants decreased in real terms between 2020–21 and 2023–24.

# Expenditure

See the reader's guide for data sources and useful information. Where noted, the numbers in this fact sheet have been adjusted for inflation and are expressed in 2023–24 dollars.

### How much money is council spending?

Total	163.9		174.9		161.3		159.5	

Greater Shepparton City Council's total expenditure decreased between 2021–22 and 2023–24, reflecting a decrease in capital expenditure.

Materials and services was the largest area of expenditure, which accounted for 35 per cent of total expenditure between 2020–21 and 2023–24.

#### Expenditure per person (2023–24 dollars)

In terms of expenditure per person (which adjusts for population growth), council's employee costs and capital expenditure decreased in real terms between 2020–21 and 2023–24.

Renewal & upgrade expenditure

Council's spending on the renewal and upgrade of its assets trended downwards in real terms between 2021–22 and 2023–24, following a peak in 2021–22.

Renewal and upgrade expenditure increased above the amount of depreciation (the decline in value of council's assets caused by age and use) in 2021–22, before decreasing below 100 per cent of depreciation in 2023–24. This spending was forecast to increase above the amount of depreciation in 2024–25, before decreasing slightly in 2025–26.

Between 2020–21 and 2023–24, Greater Shepparton City Council reported an average **adjusted underlying result** of **1.2 per cent**. The average result would have been *3.7 per cent*, if the timing of the financial assistance grants payment in 2023–24 was consistent with previous years.

An ongoing positive result suggests there is enough ongoing revenue to continue to fund the current level of service provision.

Council could meet its current financial obligations with a reported average **working capital ratio** of **172 per cent** between 2020–21 and 2023–24.

Between 2020–21 and 2023–24, council reported an average **indebtedness ratio** of **34.4 per cent**. The lower the percentage, the greater a council's ability to repay debt from revenue it controls.

**Note:** The year-on-year changes in the financial indicators can be affected by the timing of financial assistance grant payments. We have estimated the impact of a change in the timing of these payments for the 2023–24 adjusted underlying result. Please see the reader's guide for more information.
