

Southern Rural Water - Proposed tariffs for 2018-19 to 2022-23 (Noting changes from current structure)

Tariff and Price Component	Current tariff (\$2017-18)	Revised description	Notes	Proposed 2018-19 tariff (\$2017-18)	Annual price change*
----------------------------	----------------------------	---------------------	-------	-------------------------------------	----------------------

ANNUAL FEES AND CHARGES

Irrigation / Regulated Systems

Macalister Irrigation / Macalister and Thomson Regulated Systems

Water Share Fee - High Reliability	13.20	Macalister/Thomson Water Share - High Reliability		13.20	0.0%
Water Share Fee - Low Reliability	6.60	Macalister/Thomson Water Share - Low Reliability		6.60	0.0%
Delivery Share - Infrastructure Fee	5,160.00	MID Delivery Share		5,160.00	0.0%
Delivery Share - Service Point Fee - Standard	205.00	MID Service Point - Metered Outlet		205.00	0.0%
Delivery Share - Service Point Fee - Standard (shared)	164.00		1		
Delivery Share - Service Point Fee - Pump	107.50	Macalister/Thomson/MID Service Point - Metered Pump		107.50	0.0%
Delivery Share - Service Point Fee - Pump (shared)	86.00		1		
Delivery Share - Service Point Fee - River	107.50		2		
Delivery Share - Service Point Fee - River (shared)	86.00		1, 2		
Delivery Share - Service Point Fee - Unmetered	48.00	Macalister/Thomson/MID Service Point - Unmetered		48.00	0.0%
Delivery Share - Service Point Fee - Unmetered (shared)	38.40		1		
Delivery Share - Water Usage Fee - Standard	9.95	Macalister/Thomson/MID Usage		9.95	0.0%
Delivery Share - Water Usage Fee - River	9.95		3		
Delivery Share - Water Usage Fee - Casual Use	52.90	MID Casual Use		52.90	0.0%
Drainage Diversion	19.00	MID Drainage Diversion Entitlement & Sales		19.00	0.0%
Drainage Diversion Sales	19.00		4	19.00	0.0%
Irrigation Bulk Supply	13.20		5	13.20	0.0%
Salinity mitigation	0.55	Salinity mitigation	10	0.55	0.0%

Werribee and Bacchus Marsh Irrigation / Werribee Regulated System

Water Share Fee - High Reliability	125.00	Werribee System Water Share - High Reliability		125.00	0.0%
Water Share Fee - Low Reliability	62.50	Werribee System Water Share - Low Reliability		62.50	0.0%
Delivery Share - Infrastructure Fee (WID)	14,900.00	WID Delivery Share		14,900.00	0.0%
Delivery Share - Infrastructure Fee (BMID)	10,370.00	BMID Delivery Share		10,670.73	2.9%
Delivery Share - Service Point Fee - Standard (WID)	230.00	WID Service Point - Metered Outlet		230.00	0.0%
Delivery Share - Service Point Fee - Standard (Shared) (WID)	184.00		1		
Delivery Share - Service Point Fee - Pump (WID)	115.00	Werribee System/WID Service Point - Metered Pump		115.00	0.0%
Delivery Share - Service Point Fee - Pump (Shared) (WID)	92.00		1

Applications—Meter Test	160.00		19		
Applications - Diversion Works On Crown Lands	325.00	Diversion works on Crown lands		325.00	0.0%

Notes to the above table are detailed on the next page.

NOTES

- * *These charges are subject to a revenue cap. The proposed annual price path is only indicative and actual annual price changes will be subject to constraints specified in the annual price adjustment formula.*
- 1 *Shared service points will continue to be charged at 80% of the full rate. However, this will be dealt with via a note to the tariff schedule, rather than as separate tariffs. For the purpose of the price control spreadsheet, the quantities for shared service points have been multiplied by 0.8 and added to the applicable full fee category.*
 - 2 *Pump outlets are charged at a uniform rate, whether on channels or rivers. These have been merged on the tariff schedule.*
 - 3 *Water usage with the irrigation area is charged at a uniform rate, whether from a channel or river. These have been merged on the tariff schedule.*
 - 4 *Usage in excess of entitlement is charged at the same rate as the entitlement. These have been merged on the tariff schedule.*
 - 5 *This fee is no longer applicable to any customers.*
 - 6 *Annual licence fees for surface and groundwater licences charged at a uniform rate. These have been merged on the tariff schedule.*
 - 7 *The current base fee for aquaculture licences incorporates the first 3ML/day extraction. Charging this at the standard rate and then applying the volumetric component to the full extraction rate, will simplify our tariff schedule and billing (on our current bills, the volume multiplied by the rate does not equal the charge, because of the 3ML/day allowance in the licence fee). We have three aquaculture customers, whose bills will reduce by \$34 each.*
 - 8 *Hazardous dam operating licence fee merged with decontamination bore operating licence fee.*
 - 9 *We are removing this fee, as additional monitoring costs are no longer incurred.*
 - 10 *Under previous Water Plans, we have excluded salinity mitigation activities from prescribed revenue.*
 - 11 *We have 15 tariffs relating to various transactions in relation to delivery shares, water use licences, water use registrations, and drainage diversion agreements. These fees are rarely applied. We propose to amalgamate into a single tariff.*
 - 12 *A simplified tariff structure, consistent across both surface and groundwater applications, will incorporate the cost of water availability assessment into the base fee (previously charged as a separate application at \$110), and will significantly reduce costs for large applications by reducing both the fixed and volumetric components.*
 - 13 *We do not typically undertake technical assessments, and if so would undertake as a fee for service, not as a tariffed application.*
 - 14 *Licence renewal fees will no longer be charged. We will fund our renewal processes from annual licence charges.*
 - 15 *A tiered structure for licence amendments will provide a reduced fee for simple amendments.*
 - 16 *A tiered structure for licence transfers will provide a reduced fee for repeat transfers. Fees for more significant transfers incorporate public process costs (currently charged separately).*
 - 17 *Revised fees incorporate public process costs (currently charged separately).*
 - 18 *Revised bore construction licence fees incorporate inspection costs, previously charged separately at hourly rate. For simplicity, costs for construction, modification and decommissioning are incorporated into a single structure.*
 - 19 *Fee never used / not required.*
 - 20 *Fee reduced to reflect simplified process.*
 - 21 *Fee moved from "Construction Licence" to "Private Works" category*
 - 22 *Public consultation fees now incorporated into application fees where applicable.*
 - 23 *Fees duplicated on schedule.*
 - 24 *Standard information report combined with mail out fee.*

Diversion works on Crown lands	Per application		325.00	325.00	0.0%

Notes to the above table are detailed on the next page.

NOTES

* *These charges are subject to a revenue cap. The proposed annual price path is only indicative and actual annual price changes will be subject to constraints specified in the annual price adjustment formula.*

** *A number of application fees have been restructured, and so more than one fee may have previously been applicable for these transactions.*

1 *Shared service points charged at 80% of the full rate.*

2 *"Sales" charges apply to usage in excess of annual entitlement volume.*

3 *Salinity mitigation charged on usage recorded for the prior season.*

4 *Charge per ML of entitlement, in addition to standard or winterfill licenced volume charge.*

5 *Applies to licences on the Narracan, Ten Mile and Wilderness Creeks and their tributaries.*

6 *Applies to licences downstream of Lake Blue Rock.*

7 *Applies to licences downstream of Rosslynne Reservoir.*

8 *Applies to extraction from rivers, streams and deep bores in the following parishes: Bundalaguah, Coongulla, Dension, Glenmaggie, Maffra, Nuntin, Sale, Tinamba, Wa De Lock, Toongabbie North, Toongabbie South, Winnindoo, Wooundellah, Wurruk Wurruk.*
