

To whom it may concern,

Dear Sir,

I was very disappointed that I was unable to attend the ESC meeting, at Tatura, on Monday 11th March 2016 and have my say.

So here are my thoughts.

I do not want the GMW tariff structures changed as in its present form it makes GMW more accountable and efficient.

I also thank you for removing the \$25 million from the GMW's proposal and strongly suggest this is not watered down.

Yours faithfully
