

## **Barwon Water increases!!!!!!!!!!!!**

IF ????? there has to be an increase in our water rates WHY would we elect to have it THIS year if there was an option against NEXT year ???  
Would be better if it was never.

As for what category you select to add the charges!!! You can only charge to Water Usage as Sewerage charges have nothing to do with a supposed water supply.

Haven't we already paid for this pipeline with previous increases??

We really can't win can we?
