

Commissioner Cavagna

Dear Sir

I respectfully urge the Commission to revise the Draft Determination for budget postponement in respect of the scheme and accept the scheme budget as contained in SGW's Water Plan 111 for 2013-18 to enable the promised Loch, Poowong and Nyora WWTF to be constructed and functional without delay. The smells around the town are dreadful the septic tanks are not coping and householders have been holding out in anticipation of the new sewerage scheme. The serious health issues are increasing by the delay.

Yours faithfully

Mrs Laurie Gregg
